Customer Testimonials

1. Joe L. – California

HYDRATION, WEIGHT, ENERGY, ATHLETE'S FOOT

I love my Jupiter ionizer. I started seeing results in less than 3 weeks. My skin seems more hydrated and has a healthy sheen to it. My cravings for sweets has dropped off considerably. In fact I lost 7lbs in the short 3 weeks of owning the ionizer. I still eat the same way (no diet) but I eat way less sweets and that probably accounts for the 7lb loss. I also feel more alert and energetic, which is great since I hate doing exercise.

I even see an improvement in my athlete's feet. I have not put any medicine on my feet, yet they are clearing up dramatically, so it must be the alkaline levels in me.

By the way, I am maintaining a pH above 7.0 since I started drinking this water. I have in-vitro test paper and check every morning.

PS: Using the reagent test solution that came with the ionizer, I was surprised to find out that even after boiling water for cooking and coffee, the pH level of the water did not drop one bit.

2. Bobbie S. – Colorado

WEIGHT, SKIN

After being introduced to alkaline ionized water, I was skeptical to say the least. "Water is water," I said. I set out to prove the theory wrong. During my evaluation process, the first two weeks of drinking the alkaline ionized water I lost 9 pounds. I did nothing different except drink this water. It has been five months now with a new total of 26 pounds. I feel better than ever! I wake up refreshed, full of energy.

My eyes are brighter and more clear than ever. My skin has an amazing healthy glow again. I find myself wearing NO makeup and loving it, just like in my youth. I no longer have those afternoon cravings.

I am making healthier food choices because of the reading I am doing, learning about our body's pH and how important it is. I had no idea that the bottled water I was drinking was not doing its job. That job is to flush

out ALL the stored toxic acidic waste that was keeping me overweight, unhealthy and unhappy. I feel like I have been set free, not to mention that I no longer have all that plastic waste in my trash. I am taking a proactive stand for my health and the environment, and it feels great!

3. Jenny L. – North Carolina

ENERGY, THIRST FOR WATER

I have been drinking alkaline ionized water for about six months now. Let me just tell you, this water is amazing! This is life-changing, and you've got to try it.

Since drinking the water, I feel more energized and healthy than ever before. Along with a change in certain foods I eat, a little exercise, and alkaline water, I have lost about 22 pounds. This water tastes so crisp and refreshing, you just keep going back for more.

4. James C. – Kansas

ENERGY

My energy level is much higher since I've been drinking this ionized water and there is a great reduction of arthritis in my hands. Also, I don't need as much sleep as before and, in general, I just feel great thanks to the ionized water.

5. Stephen M. – Washington

THIRST FOR WATER, PHYSICAL ACTIVITY, CYSTS

I never really liked water. Living in the Northwest, I just didn't get thirsty. It's like standing in a lake all day... you don't get thirsty!

A friend of mine worked for another ionizer company and gave me one to use. The ionizer didn't work too well, but when I replaced it with a Jupiter ionizer I started drinking more water and for the first time in my life I enjoyed it.

Soon I noticed several astounding changes in my health. For one, I didn't get sore when I worked out and, to my surprise, two painful cysts that were in the joints of my hands had disappeared. I never even noticed until one day there was no extreme discomfort. In fact, my body was free of muscular skeletal discomfort! Since then I have had very positive changes in my health. Water has taken a new meaning in my life!

6. Rick C. – Colorado

DIABETES, SKIN, SLEEP, ENERGY

I was diagnosed with Type 2 Diabetes about 10 years ago at the age of 45. Having been overweight, not eating healthy and drinking very little water and way too many sodas, it was no wonder that this condition would affect me as it had my father many years before.

I am also a cancer survivor, having had surgery and radiation treatments for throat cancer almost 5 years ago. A few years ago I developed what seemed like small wart-like bumps all over the tops of both feet and red blotches on my skin just above both ankles. Although not painful at the time, it did cause me concern about potential problems due to my diabetes and a compromised immune system from the radiation treatments.

A good friend introduced me to the wonderful benefits of drinking alkaline ionized water, and my results have been nothing short of miraculous. After giving me ten or so gallons of this water over a two-week period, I feel better than I have in a long time. I knew I had to purchase one of these machines, and I did. This is one of the best investments in my health I have ever made.

Let me share with you what I have experienced in a little over a month as a result of drinking alkaline ionized water: The bumps on my feet are completely gone, as well as the redness around my ankles. My blood sugar level has finally stabilized. I have lost over 6 pounds, and I sleep soundly through the night. No more waking up 3 - 4 times to use the bathroom. My energy levels are way up, and I feel great.

I have used some wonderful nutritional products over the years, but nothing has made me feel this good in such a short period of time.

Wow! I have found the fountain of youth, and it is sitting right on my counter top.

7. Kristine Catalina

MENTAL CLARITY

I have never been an avid water drinker. I haven't had any major physical challenges, but I started drinking the alkaline antioxidant water and something just felt right on many different levels. I started drinking more water and after a month, I noticed that my memory was sharper. I'm 58 years old, and lately I had noticed that my thoughts wouldn't always connect with the words that came out of my mouth. Now the connection is much better.

8. Cathy P. – North Carolina

EYESIGHT

I replaced drinking bottled water with the alkaline ionized water just 3 weeks before my annual eye exam. My optometrist and I were both stunned when, for the first time in my life, my eyesight actually improved. The measurable impact of the alkaline ionized water in such a brief period of time is amazing!

9. Chris S. – North Carolina

MIGRAINE, PAIN, SLEEP, ENERGY, SKIN

About seven weeks after going on this water, my wife commented that she had not had a migraine, except for one mild one, since we started on the water. We are talking about my wife who has had three to five migraines every month since she was a young teenager. We're talking about debilitating migraines that would put her in bed, in tears, with ice packs wrapped around her head, the whole enchilada.

In the 27 years that I have known her she has always had a hard time holding down a job, and has spent many vacations and holidays in bed suffering from these migraines. Medical doctors tried to get her to take pain meds. The holistic doctors and naturopaths put her on supplements and detox diets. They only helped temporarily for a week or so.

So, it was becoming apparent that something else was accounting for her relief. Well, that was almost a year ago, and she has not had one migraine since except for two times we had to take a trip by plane, and since we could not take our alkaline water on the plane... you guessed it! Both times, the next morning she woke up with a full-blown migraine. Luckily, both times we were nearby someone with a Jupiter water machine. We brought her three liters of it, and each time, by noon she was up and about and feeling great!

Oh, and by the way, my wife's leg and foot pains have also gone away, along with her digestive problems.

We both sleep better. I don't wake up with the hour of droopy eyes and brain fog or crash at night the way I used to. It's like I'm in my twenties again. I can actually work until two or three in the morning and get up at seven and feel very rested. I have not been able to do that for many years. My dry skin is gone, and even my gray hair is getting darker.

10. Roger O. – Nevada

BLOOD PRESSURE, OVERALL HEALTH

In a 60 day time period, my blood pressure was reduced from approximately 155/85 to a lower level - around 125/65. On long day trips, the water keeps me awake and alert until the end of a 16 hour day. Overall, I feel much better.

11. Jeff H. - Virginia

ALLERGIES, WEIGHT, ARTHRITIS, PAIN, BLOOD PRESSURE

I have kept a health journal on the many benefits I have received from drinking ionized water: All allergies were gone overnight. Mouth canker was gone overnight. No more stiff neck upon waking. I'm able to handle cold weather much better. I lost 10 pounds during the first seven days, followed by four more pounds four days later. In 14 days, my blood pressure went from 144/92 to 8/70. My arthritis, back pain, and pain in my hands were virtually gone within 30 days. I am most impressed with this water. I am convinced that there is nothing out here today that can do so much for so many.

12. Eduardo Flores

HYDRATION, ENERGY, DIGESTION, PHYSICAL ACTIVITY

I came to the US 28 years ago and within a few years of arriving here I developed digestive problems. I tried everything, including a vegetarian lifestyle, yoga and daily exercise, but nothing helped. Five days after I started drinking the alkaline antioxidant water, my digestive problems and the pain I had tolerated in the mornings for years were gone. It was like I received a new digestive system.

The alkaline antioxidant water gives me extra oxygen and keeps me hydrated. It is the only thing that I have changed in my life and I am so grateful because my life is fantastic and I have so much energy.

I have been active all my life, but now I am running as fast as I did 24 years ago, which is unbelievable for me. I feel like I got 20 years of my life back.

13. Marshall T. – Hawaii

REGULARITY

Being in remission with colon cancer, I am very concerned with my bowel activity. I have tried many things, and continue to do so, to keep my bowels happy. Being on the alkaline ionized water, I am experiencing regularity which must be an effect of the increased hydration that the alkaline water provides.

14. John L. – North Carolina

PAIN

When I was first introduced to alkaline ionized water by my good friends and neighbors, I was skeptical about it. But I drank the water at their home, liked its taste and the way I felt, and I started taking home jars full of the alkaline ionized water.

Within the first week, I noticed a huge difference in my joint pain (I have a construction and roofing background and suffer from aches and pains commonly associated with that trade). As I started researching the science behind this water, I saw that it made a lot of sense.

15. Wayne S. – Nevada

ALLERGIES

I had been drinking the ionized water for three weeks when I noticed that my chronic allergies were GONE! I had been taking three over-the-counter allergy pills each day and carried two bottles of nasal spray with me at all times. I would go through a box of tissues every day. No more pills, no more nasal spray, and now a box of tissues lasts me a month!

16. Patricia P. – Tennessee

WEIGHT, APPETITE, SKIN, ENERGY, FLOWERS, REGULARITY, PETS

The list just keeps growing of all the ways this amazing water is improving my life! My health and life are improving in so many tremendous ways since I began drinking Jupiter alkaline ionized water. This amazing water is remarkable!

Let me tell you: In the first 5 days of being on this water, I dropped 5 pounds. In three weeks, I had dropped a total of 9 pounds. My mom dropped 10 pounds the first 12 days, and in two months was down two dress sizes!

My appetite has changed to where I no longer have a “sweet tooth” and I truly desire only nutritional food and beverages now. I have people stopping me in public to ask me what I do to have such beautiful facial skin. For the first time in my life I feel hydrated and have a silken sheen to my skin. Our local health food store owner told me I look 20 years younger!

I now have more energy and stamina than I’ve had in 25 years! My sleep has greatly improved and now there are several mornings when I awaken before my alarm clock goes off.

My elimination is greatly improved also which has helped with so many aspects of my health. Of all the products I’ve purchased and efforts I’ve made in my desire to live a healthy lifestyle, getting my own Jupiter machine and drinking the alkaline ionized water is the best gift I’ve ever been given for my health and appearance.

The acidic water is now my hair conditioner and my beauty water! Women are asking me what I use on my hair and face for the silky sheen.

My houseplants and outside flower beds love the acidic water.

My dog, Chester, is 13 years old and has his own powerful testimonies about his life improving since beginning to drink alkaline ionized water. Chester used to have a blue film over his eyes, and after being on this water that film is gone! Gratefully, he has also lost 4 pounds. His energy is remarkably improved. He jumps and runs up and down the steps like he used to 5 years ago! Chester drinks and drinks this water. It used to be that he would drink two small dishes of regular water per day. Now he drinks about 5 or 6 dishes of alkaline water per day, and he drinks from the dish until the water is gone. It is as if he is craving the water. In fact, that is the first thing he does in the morning now. Instead of his old practice of first going to the door to go outside, now he goes to his water dish first and drinks and drinks.

I am grateful beyond words for the answered prayer of this extraordinary life changing water coming into our lives. If there was only one product I could suggest to add to one’s life for health and beauty benefits, it is absolutely the Jupiter alkaline ionized water. The quality and enjoyment of my life is improved beyond measure and description as a result of the blessing of this spectacular water. I am forever grateful!

17. Mike Crowley – Edmonton, Canada

ENERGY, OVERALL HEALTH

I have no critical or major health problems. I bought our Jupiter ionization machine because after research I was convinced it was the best possible available water and that Jupiter was the best company. I have drunk the ionized water for over 3 years and wouldn't do without it. I find any other water not suitable. I love it and drink large amounts of it that keep me in good spirits, health and energy. I highly recommend ionized water and the Jupiter brand.

18. George G. – California

WEIGHT, REGULARITY, SLEEP

I've enjoyed great health improvements from drinking the alkaline ionized water from my Athena ionizer. As a result of drinking the water for over two months, I have lost inches around my waist so my pants are looser. I would have never guessed that I would experience this improvement.

My elimination, which had been a constant weekly concern, has gotten better. It's great to have my attention off of this problem. Also, I have been sleeping very good for the last 19 nights in a row. I hadn't been able to sleep well for over a year. I am so happy! The only change I've made in life is drinking the alkaline ionized water for the last two months.

19. Kenneth G. – Washington

PAIN, REGULARITY, SLEEP, ENERGY, PET

I am 51 years old and have degenerative disc disease, degenerative joint disease, a ruptured disc in my neck, back pain - upper and lower, foot pain, hand pain, constipation for 50 years, sleep apnea, and acid reflux.

After drinking water, my pain is now gone, pretty much all the time. My constipation is gone. I sleep better and longer hours, and wake up feeling great. I feel healthy and alive now. I have lots of energy.

I ate poorly for 50 years - daily fast food and pop and very little water. Now, all I do is drink water. I did not eat green or veggies much, but I'm doing better now. I feel alive. My dog is doing better, too. She is moving better, in less pain.

I am now painting houses full-time with lots of physical labor. I recover physically overnight to do it again. It was hard work part-time before the water. I am all smiles now. It is the gift that keeps on giving life!

20. Kristine C. – California

HYDRATION, SKIN

I am so completely thrilled that I have discovered the secrets of better health, and much happiness. What this company is up to with their alkaline ionized drinking water system is so badly needed by so many people in today's hectic and rather toxic world.

I just love how drinking it makes me feel. I am so much more hydrated now and I can feel the changes happening in my body, not to mention how much softer my skin is looking. Using the machine means I'm not only no longer buying water in plastic bottles, and therefore one less person contributing to the plastic problem in our landfills, but I am also not taking in any more of the dioxins and chemicals from these plastic bottles.

21. Jan E. – Indiana

WEIGHT, ARTHRITIS, OVERALL HEALTH

We learned about alkaline water in December, 2006. We have a well, and the water smelled like rotten eggs. Our filter of 24 years was needing to be replaced, so we purchased an ionizer.

In the first three months, I lost 25 pounds and 16 inches overall. I went totally off of my blood pressure meds and cut my Diabetes medication in half. I had problems with daily elimination (every 3 to 4 days). Now I have 3 to 4 "alkaline moments" each day! My body is changing shape. My posture is very upright. At age 72, I now feel and look like a 55 year old.

My arthritic knee is no longer swollen, and the same for my ankles. People are stopping me to say, "you look younger and healthier and great. I have my life back!

22. Marie E. – Kentucky

MUSCULAR TENSION

Growing up, my mom would regularly ask us kids to "pound" on her tight back to get some relief from the tight muscles. Her back muscles were extremely hard. She has done all kinds of cleansing and improved her health tremendously in many ways. However, when I would massage or feel her back, I hadn't noticed any change in the tight muscles.

After she started drinking alkaline water, I happened to feel her back as I was hugging her. It was soft and pliable. I said, "What caused this?" She said, "It's the alkaline water I've been drinking."

23. Mark C. – Illinois

MIGRAINE, ACNE, REGULARITY, SORES, SKIN

I have been using alkaline water for almost two years. My family has greatly benefited from it. We can't live without it. My constant headaches have disappeared, My wife's migraines have disappeared. Also, my mother's gout problem disappeared within one week of constantly drinking alkaline water. My back skin problem or acne is beginning to diminish, and my bowel movements are smooth and regular. Canker sores or mouth sores heal faster and do not come as often anymore since I have been drinking alkaline water. Even cuts and bruises heal quicker!

24. Nuris C. – North Carolina

THIRST FOR WATER, IRRITABLE BOWEL SYNDROME

My girlfriend has two sons, 17 and 14, that out of spite didn't want to drink the water since they thought it would taste weird and different. They said they would just stick with their Gatorade and Sprite.

Well, what they don't know is that their mom has been using the water to make frozen orange juice and apple juice for over two weeks now. Last night we were laughing because all of a sudden, the 14 year old is asking for water and the 17 year old doesn't realize that he hasn't had a Sprite in about a week.

Now, you have to know that this kid had a Sprite religiously every morning for about a year. They also stopped at a fast food chain a couple of days ago. She bought him a Sprite and, after tasting it, he said to her, "Mom, this doesn't seem right. It's so sweet, and I don't even like it. Please don't buy it anymore for me." They have no clue that she has been giving them the alkaline water and, of course, we're not telling them. Funny, huh?

For my brother and me, the same thing has happened. Our craving for soda has just stopped, and I had to have at least one per day.

Also, I had an issue with IBS (not pleasant). I ate what I wanted, but I suffered for it many times afterward. Now, things don't affect me the way they used to. It continues to improve each week.

25. Jay H. – Nevada

HYDRATION

As an athlete I have high hydration needs, and I am fairly sensitive to my body's signals. When I was introduced to alkaline ionized water, I was

training for a pretty extreme cycling race and was drinking 6 - 8 liters per day, depending on my training. I was always thirsty.

My water was reverse osmosis purified water that was home delivered in 5 gallon containers. I later discovered that this water was very acidic (approx. pH = 4.5) and mineral-free.

After a few weeks of drinking alkaline ionized water, my ever-present thirst disappeared. Additionally, my recovery time from strenuous workouts was decreased significantly. It seems the alkaline ionized water neutralizes the lactic acid very efficiently.

26. Mary E. – New York

ENERGY, PAIN, SKIN, HEARTBURN, WEIGHT, CYSTS

I count myself blessed to be sharing our testimony in regard to alkaline ionized water and how it has affected our health in very positive and exciting ways!

I must admit that when I first heard about the water, I was skeptical. It wasn't until I actually began drinking alkaline ionized water that I became a believer in all the wonderful claims that others had shared with me. I started to drink half my body weight in ounces of alkaline ionized water as soon as our machine arrived in the mail.

It wasn't long before I began experiencing renewed energy and feeling as if I were a teenager again! My ever-present fatigue began to disappear and ten-mile bike rides with my husband and daughter became an evening ritual for us. The muscle and joint pain I had experienced regularly with any form of exercise was eradicated! My body was lubricated and able to function at its highest level. My skin was clearer, plumper and more radiant. I was hooked.

Not too long after we installed our machine, my husband's jeans began to look loose around his waistline. We were all shocked when, after two weeks, he was able to cinch his belt up one more notch. His weight loss continued with regular consumption of the alkaline ionized water, and he is now nearing the perfect weight for his height. Heartburn that often plagued him has disappeared, and a fatty cyst on his back is diminishing.

Our family experienced, first hand, the amazing, health-promoting benefits of this extraordinary water.

27. Gavin D. – Nevada

WEIGHT

I started drinking alkaline ionized water in April of 2006. At the time I weighed 303 pounds, and was pretty resigned to a life of inactivity.

My ankles and feet were swollen all the time. I had sores on my shins that would not heal, and the bottoms of my feet hurt so bad that I was not able to walk much at all. When I would get up in the middle of the night to go to the bathroom, I would gasp out loud in pain when I first put weight on my feet, they hurt so badly.

I began drinking the water at a low alkaline level, and moved up to a pH of 9.5 to 10 over about a week's time. I lost 10 pounds the first week I was on the water. I lost another 20 pounds over the next 5-6 weeks. This is when I was able to start exercising regularly, and the swelling and pain in my feet and ankles began to subside.

Over the next few months, I got to where I could do an hour at a good clip on the elliptical machine, and started doing light weight training, too. By the end of December, I had lost another 20 pounds, yay! So that is 50 pounds in 9 months. I could never have accomplished this without the alkaline ionized water, and I cannot recommend this enough to everyone!

28. Sang Wang – Miami, FL (Engineer and author of “Reverse Aging”)

BLOOD PRESSURE, WEIGHT, EYESIGHT

In December 1986 I was introduced to a water ionizer by a friend of mine in Virginia. She told me that the alkaline water from this ionizer would lower my blood pressure if I drank 5 cups of it daily. In those days I was taking 20mg of Vasotec a day to maintain my blood pressure at around 140/90. Vasotec was my third kind of blood pressure pill. The doctor had to change my blood pressure pills twice because of different kinds of side effects. I never liked the idea of having to take any pills for the rest of my life. That's what the doctor told me when he initially prescribed the blood pressure pills for me.

My friend didn't know exactly why the blood pressure would come down except for the fact that she knew it worked for many people. Trusting her sincerity and knowing she was a registered nurse, I bought the ionizer and started to drink high pH alkaline water.

As I was drinking the alkaline water I monitored my blood pressure. I reduced the amount of Vasotec gradually as the blood pressure started to come down. After six weeks, I stopped taking Vasotec altogether. My blood

pressure came down to 130/85 without my pills. In the meantime, over a period of two years, I lost about 20 pounds without any special diets or exercises. Lately I am noticing that my eyesight is improving.

29. Harold P. – Washington

ASTHMA, PAIN, ALLERGIES

My story started a long time ago. I am 51 years old. When I was eight years old, I accidentally ingested herbicide. Oops! I was a young farm boy and made a tragic mistake.

Six months later I had surgery for arthritis on my left knee. At nine I developed allergies, and at ten, I was diagnosed with asthma. These problems have followed me through my adult life.

At one time, I was probably one of the few players in the NHL who had a bronchial dilator at my side at all times. I was farm boy tough and would not be denied. As I got older, my problems got worse; more and more antihistamines for the allergies and endless prescriptions for my asthma. Waking in the middle of the night for the two-hour-long coughing ritual had become commonplace and then the arthritis required constant Advil. Life was definitely not going the way I planned.

I was accidentally introduced to alkaline ionized water by a new friend. Wow, what a life changing event! Almost immediately, my asthma decreased significantly. Then about three weeks later I began to notice that I was not waking up as sore, and started to cut down on the Advil.

A week after that the pollen season started, and I realized that something very different was happening to me. After 40 years of taking antihistamines almost year round, I found that I didn't need them anymore. When I got sneezy, I just drank more water! I also noticed that when I drink the water in larger amounts, I actually could "feel" it .(It's hard to describe unless you've "been there").

I cannot describe to you how grateful I am because of my "accidental" discovery. I have not had to take any pain medication in over 6 months. I have not taken any antihistamines in 9 months, and my asthma meds have been cut by half. Talk about life-changing events!

As a word of observation, about six months ago I went on a 10 day road trip and did not take my ionizer with me. Bad move! After a week I was miserable. Everything ached, and it was hard to even sleep without Advil. I am not a doctor, but even the farm boy has figured out that arthritis thrives on acid, and with it comes the pain. When they say that it will

“change the way you feel about water,” it is the understatement of your life. It would be hard for me to be separated from my ionizer because it has done so many positive things for me.

I would encourage anyone who is contemplating whether this ionized water is “real” to just go ahead and try it. From my experience, IT WILL CHANGE YOUR LIFE. I would like to extend a heartfelt thank you to the whole staff for being so supportive and patient. The water has given me a whole new attitude on life in general. Thank you from the bottom of my heart for bringing this knowledge to the “West”.

30. Melinda Young

ENERGY, OVERALL HEALTH, PAIN

Alkaline antioxidant water has made a huge impact on my life in three short weeks. During the first ten days of drinking the water, the first thing I noticed was an increase in energy. The second day I drank the water, I noticed that a pain in my hip from a bad fall this last winter had absolutely vanished, and has not returned. Within the first ten days of drinking the alkaline antioxidant water, I lost ten pounds.

Lately I have been told that I am radiant and glowing. After not seeing me for 18 months, my sister said that the last time she had seen me look this good was when I spent an extravagant amount of money to stay at a health spa. I have also quit a nasty coffee habit.

31. Glen Lyles – Orlando, FL

ALLERGIES, ARTHRITIS, BLOOD PRESSURE, THIRST FOR WATER, MENTAL CLARITY

Jan. 16, 2006....I wish I had the time to share with you in writing what I did in words with you on the phone the other day about the exciting and the at first unbelievable benefits I have experience from ionized water and especially from the Jupiter “Melody” water ionizer.

I have never had anything affect me in such a dramatic and positive way!! Let me tell you, this is now my life’s mission! Not because I am acting on some sort of faith that it will help me in the future but because it has helped me NOW!

I have suffered from horrible allergies resulting from nasal polyps (So I was told), and had to be on steroids to reduce the inflammation and congestion. Within about a year after that I developed High Blood Pressure

as a result of the steroids, so I was told and as you can imagine I had to have one drug to fix one thing then another for a problem for that etc! Talk about great marketing if you're a drug manufacturer!! Bottom Line!! I have virtually no more allergies, and what I mean by that is I can BREATHE!! Without the medication!! (No waking up in the morning hacking and spitting phlegm). My Blood pressure is NORMAL!!

I forgot to mention my diagnosis of chronic Arthritis last year in my lower back in which I became a fan of pain killers (try running a business in that constant state) 99% GONE!!

My daughter who is 7 years of age never drinks water, now she will insist on alkalized water, it is a must for her water bottle when going to school. (Our home has experienced less frequencies of the bug which is generally passed on from one student to another in schools)

My wife who was placed on a manic depressant prescription a few years ago (but due to no insurance we stopped getting it), she is experiencing elevated moods!

Thank you so much.

32. Mike Hanley

ARTHRITIS, PHYSICAL ACTIVITY

I compete in basketball as a senior athlete. I had arthritis in my knees, low back and shoulder from years of competitive sports. When I was playing basketball in the Senior Olympics, I had lactic acid build-up that left my muscles very tight. My massage therapist told me that I was the tightest person he has ever worked on in all his years of massage. Within 48

hours of drinking the alkaline antioxidant water, I had no arthritis or lactic acid issues. To top it all off, now my workout recovery times are like they were when I was in my twenties.

33. John O. – North Carolina

DIABETES, ENERGY

I first heard of alkaline water from a friend in New York. He had Type II Diabetes and he told me how alkaline water helped to bring down his sugar level. He also said that his energy was restored. Another friend (who is a member of our church) told me that alkaline water was available here in Raleigh. I started drinking the water three weeks ago. I have experienced a new energy and new health in my body.

34. Nancy A. – Indiana

PAIN, ENERGY, WEIGHT

At age 53, illnesses were creeping in: aches, pain, tight muscles everywhere, foggy thinking, lack of concentration, high blood pressure, fluid retention, dehydration, constipation, pre-diabetes, hardening of the arteries, extremely bad varicose veins, allergies, dry skin, constant tiredness, hunger and thirst, weight gain of 50 plus pounds, deep dark circles under my eyes, depression, sadness, negative thinking, no joy, no energy, no vibrance.

What had I been doing wrong? For years I ate the good oils, took vitamins, drank lots of reverse osmosis water, mostly stayed away from sugar and white flour, went to my chiropractor regularly, ate organics, and regularly shopped for and ate health food. Wasn't I a tough farm girl? I denied outwardly that I had ailments, but inwardly I knew I felt awful all of the time.

Because of the pain and tightness in my back, face, hip, neck and arms, I went to bed at night with the vibrator so I could relax the tightness and go to sleep. Where was help? Going the regular drug and medical route was not a choice, absolutely not.

I prayed and kept searching and doing. I had been searching for the answers to good health since in my 20's. But, thankfully and prayerfully, I had found Nancy Spahr at Cleansing Waters in Indianapolis in 2005. She is a colon hydrotherapist and had all the support tools and products for internal cleansing and proper diet, beginning with cleansing the colon. After 18 months of intense cleansing, multiple colonics, mucoid plaque fasting and cleansing, herbal cleanses, gallbladder and liver flushes, passing thousands of stones, removal of mercury from my teeth, ionic foot baths for heavy metals, green drinks, quality protein, good oils, cultured vegetables, reverse osmosis water, probiotics, bio-available whole food vitamins to mention some of the things I did. I began to see a little improvement, and thought I was on the right track. My allergies seemed to diminish, I lost a little weight and I should have felt better, but still oh so tired and in pain. All other symptoms were still present.

Then Michael Hanley came to Indy and introduced Nancy Spahr to alkaline ionized water. I tasted from the sample bottle that day, and Nancy asked me what I thought. It felt smooth in my mouth and tasted really good. But, I thought to myself, "I have reverse osmosis water. How could this water be better?" Nancy said she thought she was going to have to own one of those machines!

On my next trip to Cleansing Waters, there was the ionizer, ready to

dispense. I took a couple of gallons of the water home with me and began to drink my usual 2 gallons per day. As I lay in bed that evening, little cells felt like they were “popping open” inside of me, a feeling of tiny pockets of energy. I stayed awake part of the night just being keenly aware of those little feelings of energy in my brain, legs, side and all over!

The next day, I became aware that the pain and tightness in my back, shoulder, neck and face had gone completely away! I began to think, “How am I going to own one of these machines? I’ve got to get more of that ionized water!” The water was addictive. Get water, haul water, drink water. It took my pain away, made me joyful, gave me energy so that I felt like frolicking around like a little child. I could smile and be happy without effort. I began laughing and singing again. I slept deeply at night and woke up early -refreshed and ready to hop out of bed in the morning. My husband began calling me sweet. My relationships improved.

I began losing weight (25lbs so far). I have been drinking the water about 6 months, and I continue to see improvements. All I can say now is that this water is fantastic. It has made a huge difference in my life, and I can’t live without it! My age is 55, and I feel better than I did in my 20’s. I would give up everything physical that I own before living without my Jupiter water machine. I am thankful to God for answering my prayers to help me get well. Thank you God for your wonderful healing water and many other helps you have given.

35. Nicole H. – Nevada

ENERGY, SLEEP, MENTAL CLARITY

I was introduced to alkaline ionized water shortly after the birth of my second child. After my son was born, I became heavily dependent on caffeine, mainly coffee. Between the lack of sleep I was getting with the newborn and trying to keep up with a very active 4 year old, I was doing everything I could just to make it from day to day. That usually included about a pot of coffee.

On top of that, I had suffered from post-partum depression with my first child and, having recognized the symptoms again, had been put on a very strong dosage of anti-depressants and anti-anxiety medications by my doctor.

Immediately after starting the alkaline ionized water, I noticed an increase in my energy levels. Within the first week, I had completely cut out my coffee intake. I now fall asleep easier at night and receive a better night’s sleep, making it easier than ever to get up and start my day in the morning. My mental and emotional state has greatly improved, and I feel better

about my life now than I have in years.

36. Steve A. – California

IRRITABLE BOWEL SYNDROME, DIABETES, BLOOD PRESSURE, CIRCULATION, OVERALL HEALTH

I got involved after having a 3-way conversation with Dr. Glynn Hopkins and John McNaught. On the call, I mentioned to Dr. Hopkins that I had Irritable Bowel Syndrome (IBS). Dr. Hopkins then stated that in his clinic, he has been treating patients with IBS and, without exception, all of his patients have recovered within 6 to 8 weeks.

After Kaiser Hospital, where I am a member, informed me that treating someone with IBS could be a lifetime process, I figured that at least 6 to 8 weeks was better than a lifetime. See how sharp I am? I now had a goal! Within 3 days of drinking the water, I recovered. I have had no more symptoms. My stomach feels great. I can now go for long walks with my dog. How 'bout that?

It was then that I really decided to test the water. I'm a diabetic and was going to go off my diet and have carbs, desserts and whatever else that would raise my blood sugar and cholesterol. I like living on the edge. Can you tell? I had pasta for lunch, mini carrot cakes, hot dogs, hamburgers, bread pudding, you name it. I did this for 30 days. With as much of the pasta and desserts that I had, my blood test should have shown an increase in my A1C test, an indicator of how much the Diabetes is under control. You would think the LDL, or bad cholesterol, would go up. ALL OF THE NUMBERS CAME DOWN. It was the best blood test I have had in my 12 years at Kaiser. My cholesterol dropped from 134 to 119. This shows that I paid attention to my diet before the water.

My blood pressure went from 173 to 123. My LDL went from 84 to 73. My A1C stayed at 6.9, and my doctor has informed me that my Diabetes is under control.

That's not all. I have been a smoker for 55 years. I'm not really proud of it; it's a "generation" thing. After all, John Wayne smoked!! My breathing was starting to bother me. I was out of breath sometimes, and I coughed just about every morning. Sometimes I would wake up during the night with a coughing spell and get out of bed so that I wouldn't worry my wife. After about two weeks of drinking the water, I noticed that I wasn't coughing anymore. I could breathe better, and I'm feeling much better now after 5 weeks. I still smoke, though. I wasn't expecting this to happen, but Thank God it has happened!!

That's not all! I have not been able to drive my car more than a couple of miles without my legs cutting off my circulation in my feet, so my wife drives me everywhere. I can't feel my feet; no circulation and no feeling. I almost drove us through the garage once. Last week I drove my wife and friend across town for the first time in maybe 10 years. I can feel my feet now. Also, my skin is healing from the inside out. I don't have my ear infection anymore. This is just in 30 days or so. Imagine what will happen in a year. I'll be levitating. Won't that be exciting?

37. Chris S. – Illinois

DIABETES, SKIN, ATHLETE'S FOOT

Approximately five years ago, I was diagnosed with Diabetes. I had been researching all natural products before it happened. I read a couple of books, and they kept talking about alkaline water and how disease cannot live in a body where the pH level is 7.0 or above.

So, that got me to do more research, and I found an alkaline water ionizer and bought it. I drank the water for about two years, not realizing what was really going on until I went back to the doctor. He said they checked my blood 6 months back, and all my numbers were perfect. I had no signs of Diabetes. Then my ionizer broke and it sat for about a year and a half before I noticed all the signs of Diabetes and infections and always being tired. So I sent my ionizer to... and they fixed it. Within a month, I felt things changing again. I started feeling better, sleeping deeper, and had more energy.

Also, I had been getting skin infections for the past 18 months (while my ionizer was broken). That put me in the hospital four times for a week because the antibiotics had a hard time getting rid of the infection. In the past two months since I have been drinking the ionized water again until last week when my foot swelled up and it started to come back. So, I started soaking my foot in the acid water for two days straight, changing the water about every hour. The infection on my foot completely went away, and the swelling went away. Also, my athlete's foot and the fungus on my toe is almost completely gone. All I can is Praise God that he led me to this water ionizer because it has changed my life.

38. Ruth Ann B. – Indiana

WOUNDS

I had an open infection on my thigh that was about six inches wide by eight inches long. I was on antibiotics, but I was allergic to the ointments

the doctors were having me use, so the infection kept growing. I could not have anything touch it, so I was home bound and in pain. I was at risk of losing my job, but more importantly, I was afraid I was going to die from this. Phoebe W. brought me alkaline water to drink and strong acidic water to put on my wound. As soon as I started putting the acid water on my wound, it started receding. Within a few days, I was able to start wearing clothes over the infection and go back to work.

39. Rebecca K. – BC, Canada

HYDRATION, REGULARITY, SLEEP, HEARTBURN, WOUNDS

I began drinking the water in April. In 36 hours, I had a 90% reduction in body pain (I had fibromyalgia) and a reduction in urination as alkaline ionized water was staying inside and hydrating me! I usually drank 8 oz. per hour and it was “water in/water out.” This got me excited.

On Day 3, I entered a detox, specifically of the colon. This was unpleasant at first, but now I have a clean colon and eliminate 2-3 times per day. I had formerly suffered from IBS. Next, I noticed that the neuropathy in my feet was gone. No numbness, tingling, and no pain. I experienced a deeper and longer sleep. Tinnitus disappeared, as did acid reflux. I began to have abundant energy and felt my “old self returning. Mental clarity returned as brain fog cleared.

I spent 7 years trying to get well from pesticide poisoning, parasites, Lyme disease, typhoid and a number of other issues including fibromyalgia and sleep deprivation. I knew about alkalinity, but had never heard of ionization. Now, I’m telling everyone, “Examine the obvious - water.” I’ve also discovered that running acid water over a cut on the finger loses it up in 24 hours and doesn’t form a scar.

40. John M. – Washington

ENERGY, MEMORY, SLEEP, HEARTBURN, ALLERGY, WEIGHT, SKIN, OVERALL HEALTH

Recently, I started sampling something that has had the single most beneficial influence I’ve ever experienced in my body. Over the years, I’ve been learning more about good health, seeing a PhD Clinical Nutritionist, improving my diet and adding higher quality supplements, but NOTHING I’ve ever tried has impacted me more positively than this water. It’s ionized, alkaline, super antioxidant, and truly hydrating because of its reduced molecular structure promoting greater cellular absorbency.

Not being a doctor, I can only say I like this water. I believe my body is now

in better condition to function more properly as it was created to do with the proper internal balance. So legally, I must attribute these benefits to my body now healing itself.

These changes began only after I started drinking this water, which was the only alteration to my intake. I started noticing improvements after the first day, and they have only continued. I'm sure more benefits are occurring internally, and I would have to be retested clinically to document that, but those I can personally verify myself are listed below:

- I have more energy throughout the entire day, improved mental clarity and memory (more focused, no more brain fog) and am therefore more productive.
- I am sleeping more soundly, awaking more rested and, therefore, needing less sleep.
- I also feel less "stiff" when getting out of bed. I am losing fat and weight, along with diminished sugar and food cravings, "needing" less food per meal.
- I have experienced greatly reduced severe allergy and chronic acid reflux symptoms.
- I'm also breathing clearer during the day and nighttime.
- My skin is healing completely more rapidly than ever before.
- My overall attitude is more positive.
- Finally, I'm experiencing easier, healthier and more regular eliminations with detoxifying effects.

Now that I have more energy, I am walking more and I just got a bicycle to start using. I am dusting off and setting up my home workout equipment, so I expect to see compounding health benefits in my body!

The first week, I started researching to see if there was any medical, scientific or clinical documentation and was overwhelmed by the extent of supportive information. The more I learn, the more I'm convinced that this is the single most important thing I can do to benefit my health. Since purchasing my own ionizer, this is the only water I drink, and I'm now consuming more water per day. I'm even finding more uses for the alkaline water such as making coffee and tea, and soaking and cooking vegetables.

41. Bill R. – Washington

ENERGY

Last summer, I dug up, clipped, cleaned and replanted about 80 clumps of Bearded Iris. This normally takes me two to three part-time days, and I can hardly walk after the hours of bending over, squatting, etc. This year, I did it all in seven hours of non-stop work. I did not get hungry or tired and, best of all, I had not even the slightest amount of soreness or stiffness the

next day. The difference? This year I was drinking alkaline ionized water from the Jupiter machine. I was amazed.

42. Gillian G. – Indiana

HYDRATION, REGULARITY, ENERGY, PET

At age 64, my personal experience with drinking alkaline ionized water has not been as earth-shaking as some, even though I drank 9.5pH from the beginning upon getting my first ionizer, which happened to be the more expensive Brand X.

I was more rested and energetic with alkaline water, even though somewhat sleep-deprived over the past year, cause of being the sole care provider for my 93 year old mother, who is debilitated from Parkinson's for the past 12-15 years.

Reluctant to "experiment" on her, I gave her 7.0 pH until, having heard (over and over) my explanation of ionized water to others, she demanded higher pH for herself! Chronic dehydration had been a problem for her, but soon she was often becoming thirsty just for the "silky, smooth" water. We decided that it had awakened the "thirst buds."

She also became regular, the first time in about half a century!

My daughter, who is in her early 30's, had been considering water filtration for her home and jumped at the chance to have her own ionizing machine. She had learned about the benefits of alkaline water several years ago at the School of Oriental Medicine in St. Petersburg, Florida. She, too, is experiencing more energy and feelings of well-being. Lest you think it's all in our minds, our 17 ½ year-old part Irish Wolfhound, Heidi, and our 24 year old six-toed cat, Snowshoes, both sought the water bowls with the 9.5 pH water. Each time I put out 7.0, 8.5, and 9.5 pH water, switching both the bowls and the locations. We observed that they would taste their waters until they came to the 9.5 pH and only then stay and drink their fill. They were in their last days, but survived months longer than we or our veterinarian expected, to his amazement.

43. Deann J. – Michigan

ENERGY, MENTAL CLARITY

I have been blessed in many ways in such a short period of time since I have been drinking water from my Jupiter ionizer.

At first I went through a cleanse which I was grateful for, knowing that I would be feeling much better at the end of it. After the first few days, I

started to have more clarity of mind and greater focus. I have been finding myself with increased vitality and endless energy. My body seems more balanced than ever before. I had been taking anti-depressants for fifteen years and it was a nightmare to come off of these drugs. I had been off of these drugs for six years, yet I knew something was still missing from my body.

With the results that I'm having, I do believe that alkaline water was a major missing part of what my body needed for the restoration project it is under. My cells and my organs are happy!! I will continue drinking my alkaline water as I want to give my body what it truly needs for continued wellness.

44. Silvia R. – Nevada

CHOLESTEROL

On March 1, 2004 my cholesterol was 251. The doctor wanted to medicate me, and I refused to take medication. My cholesterol had been high for many years. It peaked at 255. I tried getting medical insurance, but was denied because of this. Finally, in June, 2007, one company decided to have me take a blood test to see where I was. I had started drinking the water in April, 2007. The results of the test surprised me the most. It was 174. So, there were no problems getting insurance. I started drinking alkaline water on April 16, 2007. A great birthday gift for a second chance in life.

45. K & D Peters – Edmonton, AB, Canada

ENERGY, REGULARITY, DANDRUFF

Our family has been using the Jupiter Water Ionizer for the past two weeks and we have noticed quite a change in all of us. Our youngest is 16 months old, has had more energy throughout the day; which, to our favour, has been sleeping better through the night. When she gets thirsty, she picks up her cup and points to the water cooler.

On the other hand, the three adults in the family have had some changes also, to say the least! We have become more regular in our bowel movement. Our bodies have been releasing toxins through flatulation and through excessive urination.

We have also been using the acid water, which has cleared up dandruff. It has also helped with uncontrollable hair frizz and has made hair feel like silk.

46. Joan B. – Washington

ENERGY, OVERALL HEALTH, WEIGHT

It wasn't until I was sixty years old that I learned the most amazing thing about my body and how it works. No one could have told me that my body would undergo a total transformation, not just my outer physical self including my skin, but my body's inner workings, as well.

I look and feel healthier, younger and more energized now, at 62, than I have over a span of 40 years. Not since I was in my twenties has my body been this size, the size that is my natural, meant to be, height/weight proportion.

In these past two years since I have been drinking the alkaline ionized water, my body weight has not fluctuated more than two pounds up or down. For me, this is a miracle! I am a woman, exactly like other women. We share a constant struggle maintaining our body's preferred weight, which is the weight our vessel likes to keep constant in order to best function on all levels. Having babies, hormonal changes, menopause, stress and emotional ups and downs all play a part.

For most of the last forty years, I held onto 20 to 40 extra pounds. A little over two years ago, I learned about the body's pH balance and the importance of keeping my body in alkaline/acidic balance. I have changed what I eat and drink. Today's processed, refined, altered food, including soda pop, is full of acids that the body cannot rid itself of. I bought a water ionizer machine that hooks to my kitchen faucet and renders my drinking water highly alkaline. I drink a minimum of half my body weight in ounces (60 ounces per day), and on most days I drink a gallon of this water.

My body has never been happier, and it shows. This information can change your life. Not only will your body look and feel better, it will begin to work in the way it was intended to work.

47. Mamta A. – California

OVERALL HEALTH, MENTAL CLARITY, MEMORY, IRRITABLE BOWEL SYNDROME, PAIN, PHYSICAL ACTIVITY, SKIN, SLEEP

This is the most phenomenal and miraculous product. I achieved results within 10 - 14 days. I feel younger than my current age of 38. In fact, I feel better than I did when I was 20 years old. I feel reborn, regenerated, and internally cleansed.

Extraordinary things are happening me internally, physically, mentally, intellectually and energetically. I felt the healing/detoxification process

working through my body within the first 30 minutes. I was tired for a few days, but mostly the first day, and had improved bowel function by the second day. I felt mental clarity, mental focus and mind/body balance within the first 30 minutes. It was like a natural, peaceful state of mind and body. I feel stress-free, and I used to stress out about everything.

My memory improved instantly (within the first 30 minutes). When I was learning about alkaline water, I remembered information that I learned 15 years ago when I was a nursing student.

I also experienced tremendous improvement in my stomach, digestion and bowel function. Before, I had problems throughout my life with Irritable Bowel Syndrome (IBS) and Gastritis. I always carried stress in my stomach, which now feels completely relaxed. I had pain issues with my knees from jogging, and I recently injured my wrist on the job. I had incredible improvement with pain relief within the first few days.

The reason for this is that alkaline water super hydrates the cells in your body (better than any bottled or tap water). One of the reasons you have pain issues is because of the lack of hydration. You need water to lubricate all the joints in your body.

Also, recovery from workouts is faster because lactic acid is eliminated from your body. Additionally, a skin problem that I've had since I was 9 years old (almost 30 years) has been improving by drinking the alkaline water and applying the acid water to my skin (neck, shoulders and back). The discoloration is weaker, and my skin is not as itchy.

I have also noticed improvement in my energy level and sleep patterns. I sleep better - more peacefully, and wake up more refreshed.

I have also noticed that during the brief periods when I stopped drinking the alkaline water, I felt it instantly. My internal environment gets stressed, my mind operates the way it used to, and my stomach gets upset. It's like everything just goes back to its old, dysfunctional way.

48. Edward D. – California

COLDS

Our family has managed to eliminate the common cold from our household. The last cold we had, I treated everyone with just the alkaline ionized water. Normally, our medicine chest looked more like a pantry, a small pharmacy. There was prescription medication, over the counter, under the counter, in the counter. You name it, we got it. Naturopathic, Chinese Herbal medicine, nutraceuticals, vitamins, cough drops, cough syrup, cough this, cough that, night time, day time, mid time... It was

ridiculous. Nose drops, ear drops, drops for every hole in the body.

I've tried about everything and anything to keep the cold from spreading from one child to another and to me, to mom, and back around again and again. Every year, 3 to 4 times per year, the family would be hit with a cold or infection of one kind or another. I used to never get sick. However, with the kids, not only would I get sick, I would get sick more often, and stay sick longer. I am usually flat on my back for 3 to 4 days during that time. The rest of the time, I'm trying to put up a good fight. Every time I turn around, someone was bringing something home, and it wasn't another pet.

Our house is rid of the common cold!! Just this one benefit the water has given this family has been worth its weight in gold. There are a lot more testimonials I can give you about the alkaline ionized water and the benefits of this water for me and the whole family. Thank you so much for the ionizer.

49. Jerry K. – South Carolina

GLAUCOMA, CATARACTS

We've been drinking healthy water now for three weeks. My energy is up, with no more daily naps, and more rested upon waking. Last week, I went for a Glaucoma checkup. Two days before this, I started dropping this water into both eyes several times daily. My results from two exams ago had shown that I might finally have to have surgery to prevent the loss of my right eye and move a cataract dating back to the 80's.

During last week's exam, it was determined that the pressure was okay and no surgery was needed. The alkaline water dropped into my eyes has begun to improve the cataract enough so that last night, a trip in the rain to eat out with family was a pleasure. My night vision had improved in only one week of using it in my eyes. At exams earlier this year, I could not read the first line on the eye chart. Last week, I read the first two lines! Wow, what a blessing this water has turned out to be. Feel free to pass this along to those interested, with my blessings.

50. Daniel B. – Nevada

ENERGY

Fortunately, I started to improve my eating habits in 1976 when I was giving classes in nutrition and was a supervisor for a popular food supplement company. My choices in food, thought, action, as well as the grace of God, have kept me healthy these years. When I started drinking Jupiter ionized water in December, 2007, I didn't know of any major

health challenges to reverse. My continued focus was on prevention by increasing the alkalinity of my tissues.

Yet, I have found since drinking the ionized water that I start jogging more often from parking lots to buildings I am headed to. I am guessing that the alkalizing is making subtle changes in my health. I am anxious to see what other health improvements come my way. I really enjoy dropping off a gallon of water to friends for their health.

51. Douglas R. – Oregon

PAIN

I went to the dentist after having been on the water for about a month. They did a root canal, and my mouth was numb when I left the office. The dentist told me that it would be about 4:00 or 5:00 am before I could eat. I got home about 11:30am, and drank some water. Within 45 minutes, the numbness was completely gone.

52. Eleanor D. – Washington

ENERGY

My husband, Ed, started drinking the alkaline ionized water at the beginning of September, 2007. He manufactures his own pens from hardwood. Prior to drinking the water, he could make 9 pens in one day. A week after drinking the water, he made 40 pens in a day. On September 15, after two weeks on the water, he made 63 pens in one day. This water has given him a lot more energy. Ed turned 80 years old on October 28, 2007.

53. Deborah Cesare

ARTHRITIS, HYDRATION, WEIGHT, ACNE

I was diagnosed with osteoarthritis ten years ago, and it continued to get worse. I took cortisone shots for the pain, but they were worse than the pain itself. I had one set of shots in each thumb and I never went back.

I figured I would just have to live with the pain. I have had osteoarthritis in both of my thumb joints, literally bone on bone, and rheumatoid arthritis in my and middle fingers on both hands.

I started drinking alkaline antioxidant water about eight weeks ago and within the first two weeks my pain went away. Each week I felt stronger and I experienced increased hydration in my whole body. I'm also sleeping

much better. Amazingly, since I started drinking the alkaline antioxidant water, I have lost 25 percent of my body fat. This amounts to losing 25 pounds, so my body structure is changing for the better. My herbalist had given me some drops to improve the purified water I was drinking. When I ran out, I went to him for more. He told me he had something better: alkaline antioxidant water. I started buying it by the gallon.

Now my whole family drinks it. I gave some water to my daughter who is an athlete and she ran her best times after drinking it. She'd had a breakout of acne, but now her skin has cleared up.

I had also been diagnosed with cardiac sensitivity. My heart would race at night so I couldn't settle down. The doctors thought that I was just ultra sensitive to caffeine, so I stopped drinking coffee but it didn't help. Three weeks after I started drinking the alkaline antioxidant water, the symptoms ceased.

54. Darlene Kainui

SKIN, ECZEMA, CANDIDA

About two years ago I experienced a minor breakout that kept growing, so I went to my HMO (health maintenance organization). My doctor referred me to a dermatologist, who gave me steroid shots. But even six shots couldn't contain the breakout. So I had this hideous breakout on my face, arms, and neck. I also had several incidences of something that looked like eczema or extreme dandruff, but the doctors were not able to give me a complete diagnosis. They told me that once it all cleared up, I could be tested for food allergies.

I had scarring all over, and I wasn't sleeping because of the extreme itching. Heat made it even worse. I itched from head to toe, and it felt as if I were being stung by bees all over my body. At one time I could count eight sites that were active. When the breakouts were at their peak, I noticed that even my friends would look at me in horror and then turn away. I couldn't go out into public. When I was in a heated or air conditioned environment, I would begin to itch violently, and I couldn't do anything about it. My mouth was black and peeling. People thought I had cancer or some other scary disease. I went to many different practitioners to try to find a solution.

Finally, I discovered that I wasn't allergic to anything, but that I had a serious case of Candida. I went to a dermatologist outside of my HMO, and was given two shots. The breakouts subsided for two months, but then they came back.

Three months ago, a friend gave me some alkaline antioxidant water and I started drinking it. My friend has been there for me ever since, and even delivered the water to me. After three months, the breakouts have almost completely cleared up. I now make sure to drink alkaline antioxidant water. The more I drink the alkaline water, the more relief I feel. I haven't had a shot in six months.

55. Emil Wolfgramm

GOUT

I have a gout condition that was inflamed, so I had to use a walking stick because of the gout in my feet. It was moderately painful. I tried alkaline antioxidant water. Just 24 hours after drinking the alkaline antioxidant water, I didn't need the walking stick. The water was somehow able to help my body moderate the gout.

I also used to take medication every day, but I don't have to use it anymore as long as I watch what I eat, and drink the alkaline antioxidant water. The water has benefited me. Now my entire family is drinking it.

56. Andy S. – North Dakota

BLOOD SUGAR

I'm very grateful for the machine. I went to the doctor for a blood sugar test, and it was 180. It was never that high before in all of my 50 years. My friend, Todd, came over with a glass jar of water, and I noticed right away that the water was very clear. At that point, I asked him if I could have some, and he said yes. So, I started on the water immediately, and I've seen results. In one week, I got my blood sugar down from 180 to 55 - 60. And, now I'm feeling fine!

57. Michael E. – Florida

OVERALL HEALTH

I have been a user of alkaline water for one month, and I felt the results after the first week. I had no exercise or change in diet that week. I do believe that it is making a difference in how I feel and improving my health.

58. Rich Cox

MENTAL CLARITY, BLOOD PRESSURE, HEART PROBLEMS

I am 64 years old, and have been drinking alkaline ionized water for the last 12 months. I was very encouraged by what I first heard about the water. I

know that sometimes the hype doesn't always equal reality, but in my case it wasn't hype. This water is what it was touted to be. It's the closest thing to the fountain of youth.

When I began to drink the water, my mental clarity improved and I slept more soundly. My digestion and elimination systems have also improved dramatically. I don't feel bloated anymore because everything moves well through my system. Prior to drinking the alkaline antioxidant water, my blood pressure was 138 over 85. After drinking it, my blood pressure went down to 122 over 72.

I also had serious heart issues for the past 10 years. I had a coronary infarction and was later diagnosed with an ejection fraction of 15 to 20%. On third of my heart wasn't working because it had been damaged by scar tissue. After I started drinking the alkaline antioxidant water, my heart doctor was so impressed that he now drinks the water too. Alkaline antioxidant water has transformed my life and has taken me to a whole new level of health. It's the most important choice for my health that I've made.

If you're looking for the fountain of youth, look no farther than alkaline antioxidant water.

59. Andy M. – Missouri

WOUNDS AND SORES

I received my Jupiter ionizer on Tuesday, 9/04/07. I was waiting to try the acid water on my feet as I have had itching feet for at least the last ten years. Also, if I scratched them with my finger nails, I would have an open sore that would take a number of days to heal and then would be red for a long time. Tuesday night I put my feet in about two inches of warm acid water for a little over an hour. I cannot tell you how surprised I was when the itching was gone and my feet were softer than they have been in many years. A few hours later, I had some itching again, but by morning that was gone and has not come back since. Thank you for bringing this healing to America.

60. Tom B. – New York

ENERGY

Because of my existing health condition, I believe that I was able to see the difference it made more quickly than most. Two years ago, I was diagnosed with head and neck cancer and have undergone about 60 radiation treatments and more than 40 chemotherapy treatments. In that time I frequently had periods of extreme fatigue resulting from these treatments.

I began a regimen, drinking 8-10 glasses of alkaline ionized water per day over the course of a few months, and the results were just amazing. As it was the only change I had made in that period of time, I can only attribute the results to the effects of the water. I noticed immediately that my energy level was returning to almost normal. I have not had to lay down several times a day as I had previously experienced, and for that I am grateful. The water has become a foundation in my life and that of my family. I am certain that the future will bring even more evidence of its phenomenal effects.

61. Barnabas W. – North Carolina

PHYSICAL ACTIVITY, HYDRATION

I do have a couple of testimonials. I gave some family members and friends the alkaline water with the machine setting on #4 (highest level of alkaline) and the results of the power of detoxifying the body were unbelievable.

What was amazing was that they only drank between 8 to 24 ounces, and within three or four hours, they noticed that something was different inside them (that's the power of level #4!). I told them that it would be powerful, but they thought I was joking. After all, water is water to the average American. I tried to start them on level #1, but they wanted to be like me (this may be an ego problem). So, I gave them what they wanted, and now they are 100% sure that alkaline ionized water is very different from plain water.

As for me, I have found that I am perspiring more when I am working outside or exercising. Also, I feel that my body is cool inside which means that I am hydrated. Also, my skin is softer, and it appears to absorb the sun better. I recover more quickly from sunburn (usually within 18 hours). That has never happened before. It usually takes at least a day and a half. Thank you!

62. Silvia R. – Nevada

OSTEOPOROSIS, PAIN

In April of 2007, I was diagnosed with osteoporosis, with a T-score level of 2.7. April of 2007 was also the month when I started drinking alkaline water. In November of 2007, I had another bone test done. The T-score was 1.0, which is normal. In seven months, the body reversed the problem.

I had been drinking reverse osmosis water for over 10 years. Doctors told me to increase calcium and magnesium intake, to exercise more and to eat healthy, all of which I was doing in vain. The only thing I had changed during this seven-month period was the water. In May of 2007,

I experienced 3 shoulder tears. At the same time, I developed “Frozen Shoulder,” a condition that won’t allow you to raise your arm, and you are very limited with every movement. I have not taken any pain pills. In the morning, I drink two big glasses of alkaline water. At noon, I begin feeling pain on my shoulder, so I drink another big glass of alkaline water. I keep drinking the water all afternoon and before I go to bed. Even though I cannot work out like I used to (tennis, golf), I lost 5 pounds with some walking. It’s great to drink water for pain control instead of taking medication.

63. Melvin Davis, USA

FUNGUS, PAIN

I will start by saying I was a little skeptical about the concept of water ionization, but given a 60 day money back guarantee what could I lose. I figured if it did half of what it claims it will be a good thing.

To my surprise it exceeded my expectations, it is not going back. In four day’s a problem with my esophagus and a pain in my side disappeared, I have had these problems for over a year, wow!!!

I could eat a meal without drinking a large pitcher of water and it felt like an alka-seltzer tablet dissolving in my side. Not to mention the toe fungus which I have had for years is starting to clear up after soaking in the acid water, this in two months of using this water again WOW!!!

I look forward to see the benefits in the long term! I could go on and on but I will stop for now other than to say the customer service is top notch.

64. Florence Niemann, South Africa

THIRST FOR WATER, ENERGY, SLEEP

I have recently introduced the water ionizer to my entire family. What I found to be wonderful is that all those members who did not feel inspired to drink water before have now become water babies.

My mother, who started the day with a cup of coffee and never thought to drink anything during the day, never drank water is now drinking away, can’t get enough. Our other halves - my husband and father - both go armed to work with their 1 liter bottles of ionized water nothing else will do! My father jokes that he is glowing like a light bulb!

I used to drink countless cups of coffee for energy and now drink only the ionized water and have found that my skin glows, I have plenty of

energy and require less sleep. What is great is that non water drinkers are completely converted to drinking ionized water - nature's medicine, simply because we know it's the best and it tastes great. You don't have to wait for an illness before drinking ionized water.

65. Glen Myerson

PAIN, ARTHRITIS

I was an active runner my entire life until 5 years ago, when a car accident ended all that. I had to have back surgery and now have a titanium cage around my vertebrae. I also had surgery on both of my knees. My entire spine is now degenerative at every level, from my neck to my tailbone. I have psoriatic arthritis, rheumatoid arthritis and inflammatory arthritis.

Shortly after another accident five months ago, a woman came into my store. I was overweight, using crutches and taking 8 painkillers a day. She heard my story and said I was drinking the wrong water. She offered to bring me some alkaline antioxidant water. She started bringing me one and a half gallons every day. Within three days, I was off crutches. Within five days, I was down to two painkillers a day. Within one week, I dropped 15 pounds. After two weeks, I was off all my medications, I'd lost 20 pounds and I was pain free.

I was scheduled for knee replacement surgery, but after one month, the doctor realized that my knee had healed itself.

Today I'm actually jogging. My body is completely healed, and I feel terrific. Every day gets better and better. The alkaline antioxidant water changed my life. There is a lot more to the water that meets the eye.

66. G. Botteselle – Edmonton, AB, Canada

WEIGHT, BLOOD PRESSURE, ARTHRITIS, SKIN, SLEEP, ENERGY, MEMORY, MENTAL CLARITY

I've been on the alkaline diet for months now, a bit longer than I've been on the water, as I thought there's no point paying for an expensive water machine and not doing the diet, too. Otherwise bad diet cancels the good work of the water. Getting better at alkaline diet/water each month, have had terrific results:

- over 20lbs lost so far
- blood pressure better than normal after it went up last year for 1st time (when I had to stop running first time in my life)
- arthritis from a running injury 20 years ago, worse every year, now all gone (running again--yippee!)

- better skin
- deeper, sounder sleep
- more energy (no low energy mid-afternoon)
- calmer (less PMS mood swing)
- brain fog gone
- memory better

67. Marj Chipperfield – Canada (A world champion at 82, at the World Masters Swimming championships in Canada. Marj won two gold (400m individual medley and one kilometer lake swim), two silver (200m backstroke and 100m freestyle) and one bronze (200m freestyle)

TASTE, PHYSICAL ACTIVITY

I have been drinking alkaline ionized mineral water for the past two years. I simply love the refreshing taste; all the other benefits of increased oxygen content, anti-oxidant abilities, rapid absorption, and its higher pH to neutralize excess acidity are all extra-added bonuses. Thank you, your water is a blessing for the young and old alike.

68. H. Pidborochynski – Spruce Grove, Canada

WATER RETENTION, RASH, SKIN

I am 78 years old and have started drinking just three glasses of high alkaline ionized water per day. I was prescribed 3 blood pressure pills (water pills) per day because of water retention in my legs and feet, which were always swollen. Just after one week of drinking this Living Water, I am no longer taking this medication, I have no swelling in my legs. I have more energy, sleep better and have lost 5 pounds in one week. I am looking forward to becoming even healthier. I have increased to 4 glasses per day and will continue to drink this healing nectar that has changed my life.

I have had a skin rash, itching, redness and infections in the fold of my belly where I had an operation 15 years ago. I have tried medication, salves, corn starch and even tried cotton cloth to try and stop the itching, redness and frequent infections. I started spraying my entire body with the acid water twice daily, morning and evening, and sprayed the fold line every time I used the washroom. To my amazement, there was instant relief and just after 5 days, 15 years of suffering was over, no redness, itching or irritation. Imagine my surprise, wonder and excitement to finally feel great. My hair and entire body feels softer, smoother and healthier. To think the simplicity of acid water healed me where many medications failed. Thank you for my Jupiter Water Ionizer."

69. Macushla Boyle – St. Lucia

SKIN, SLEEP, ENERGY, WEIGHT, PHYSICAL ACTIVITY

Replacing my reverse osmosis water purifier with a Jupiter Ionizer four months ago has been one of the best investments in my health that I have made. I used to wake up with a puffy face, which would take 2-3 hours to go away. I no longer have this problem. My eyes are clearer and brighter, my skin finer in texture, and I sleep soundly at night, no longer waking up with insomnia.

I now have the kind of energy which gets me through a very stressful job, in which I often do not have the time for a break, often working 9-10 hours straight.

It is true that this water is not 'heavy' on the stomach; I'm able to drink without difficulty. Since changing my drinking water I have also lost about 3kg, and this being during a period where I actually reduced the amount of exercise I was doing! When I work out with weights, and drink up to a liter, my recovery is impressive - I no longer suffer the kinds of aches previously felt.

70. Ray Jardine (renowned rock climber, inventor, author, and originator of ultra lightweight backpacking).

OVERALL HEALTH, ENERGY

The Jupiter water ionizer that I purchased was everything it was advertised as, and more! My overall health, and energy levels have been noticeably improved. This water really does work!

71. Tara Andre – Australia

THIRST FOR WATER, ENERGY, MENTAL CLARITY

I know you will love to hear that we are over the moon with our water ionizer. Our neighbor is, as well, with hers. She even told us today that her husband who NEVER drinks water is starting to have a few glasses a day. She said she is personally drinking around 4 liters a day. Geoff and I seem to have a lot more energy and better mental clarity. We are now off all supplements, which were costing us a lot of money and find the ionized water, sprouts and organic veggies are enough.

We gave a friend ionized water yesterday and didn't tell her what it was. She kept sipping away and started to say how wonderful it tasted. She also kept saying how alive we looked and how bright our eyes were. I really feel we can thank the ionizer for most of that as well.

Our two year old grandson doesn't usually like to drink water. When I gave him the micro water he guzzled it all down and even started going into the kitchen asking for 'water'. I made the mistake of giving him ionized water last night before he went to bed. A sleepy boy was suddenly jumping out of his skin and he kept saying he was 'awake'.

Needless to say we are happy to demonstrate the ionizers if you have inquires in this area. I know for sure that if you had an agent up here to show us the machine and let us taste the water we probably would have bought one much sooner.

72. W. Pidborochynski – Grand Cache, AB, Canada

ENERGY, SLEEP, FOOT ODOUR

I am 50 years old and recently had a quadruple bypass. I started drinking the high alkaline water 6 months after my operation and noticed the antioxidizing qualities quite quickly. I sleep better, have more energy and my body craves this amazing water. I am more regular and feel great.

I also use the acid water to control foot odour. I spray my boots and shoes on a regular basis and spray my feet morning and night. I find it amazing that the simplicity of acid water has made such an amazing difference. I no longer suffer with bad foot odour.

73. Mike Logie – Canada

ARTHRITIS

I wanted to let you know my experience using the Jupiter Melody and alkalizing my body. Prior to getting my Jupiter I had suffered from creeping and debilitating arthritis in both knees. My right knee I could barely bend. Walking had become difficult and running impossible without my knees swelling up. For a man under 50 this was not an exciting prospect.

I had heard about alkaline water from my internet research and decided to give it a go. I purchased the Jupiter about 18 months ago and have not looked back. I drink between 5-6 large glasses a day. I also drastically cut my sugar intake down at the same time as starting drinking alkaline water. Now both my knees function PERFECTLY with no pain. I can walk, run and jump with no adverse reactions. Needless to say I am a strong advocate of alkalizing. Thank you for this great product.

74. O & J Peters – Hinton, AB, Canada

THIRST FOR WATER, SLEEP, ENERGY

My family of 5 have been drinking the high alkaline ionized water for almost a year now with amazing results. The three children will drink water before asking for juice, pop, or even milk, which for young children ranging from 3 to 7 years of age is amazing. We used to go through 3 to 4 liter jugs of milk in a week. We now only use one, which is mainly for cereal in the morning or cooking. Because of the active molecules in the water, we noticed that juice crystals also dissolve faster and more efficiently, which has cut down to 2/3 of the amount normally used to make the same amount of juice. The whole family feels better, sleeps better and has more energy."

75. Anna Heiskari – Suffolk Park

ECZEMA, HYDRATION, ENERGY

My name is Anna Heiskari. This is my story; an expression of gratitude for being given the gift of Ionized water.

I will begin with a description of my predisposition. I was born with chronic eczema to 50% of my body. My mother was an asthmatic who treated my skin following holistic principles, with emphasis on diet and avoidance of chemical detergents, soaps, creams etc. that might cause a reaction on my skin. With all this taken into account I was made comfortable at times, yet never totally free of my eczema and the restrictive hold it had on my life.

Throughout my adult years I studied Naturopathy, Iridology and Kinesiology and various other alternative modalities in order to heal my eczema, and also to be able to help others. In all this I found the key to being and feeling healthy was to alkalize the system. I had relied on my diet and other disciplines to achieve this, yet I was never able to break free of my inflammatory skin condition. It has been particularly challenging over the last 3 years, mostly affecting my hands, which were swollen, red, cracked and at times bleeding. Being uncomfortable about using or exposing my hands to my health practice clients, I ceased work as a Kinesiologist.

Almost a year ago I was introduced to the Jupiter Science water Ionizer. Immediately I began drinking the water it energized me. Within days I began to notice a remarkable change in myself, my eczema and my energy levels. I felt positive at last.

Today I have healthy glowing skin and I am totally free of any signs of eczema. The only difference in my life is the Jupiter water that I have

begun drinking. The joy I now feel to stroke my little girl's soft cheek and to be able to hold her hand is just beyond wonderful.

When I brought my Jupiter home it attracted the attention of my 17 year old son whom I will describe as a passionate sleeper. He mostly plays his computer in his waking moments and manages to drag himself up, cranky and tired, out of bed 20 minutes before school. He began drinking the Jupiter water. To my delight and surprise, he also began feeling energized, and broke his two year sleep pattern. I noticed his skin improving, and he looks more hydrated. Instead of a bottle of Coke by his side at the computer, he has a large glass flask of Jupiter water. His diet has changed spontaneously. No more sweet foods and take-aways; they no longer hold any attraction for him, and my vegetarian cooking is no longer rejected.

I give my water away to my friends and they have all commented favorably. Ionized water is life giving. It helps the body to return to its natural balance. It supports the system in regeneration of healthy cells, and saturates it with life giving energy. It is so amazing that this free radical-fighting power comes from ordinary water. It is just so simple. All you need to do is drink it.

76. Ama Kalda – Coorabell, Australia

ARTHRITIS

When I started to drink this delicious water 6 years ago, it took about 4 weeks and all my arthritic pains in my thumb, wrists and knee disappeared, to be never heard of since. It helps my digestion and makes me feel clean inside out.

77. Dan Reid (author on various health topics, particularly in the field of longevity)

TASTE, HYDRATION

I can taste the water. I can tell it's ionized because I know what water is supposed to taste like. When we first tasted it we really knew this was the real McCoy. I also never liked drinking water. I would drink tap water and be dehydrated as a result. I decided that's it, I don't like it, it makes me feel bad. But when I found this water, it just went right in. I had another glass, and it tasted good, and it was then I realized I had been drinking the wrong water. I've continued drinking it since then.

Of course, it makes good tea, it's good for cooking, food tastes better and the micro clustering and all the other reasons to take it are there. I think one of the main reasons is because I am aware, now, having had it for a long time, of the importance of minerals and trace elements, and

how difficult it is with ordinary H₂O to assimilate them. Most mineral supplements do zilch.

78. Barbara P. – NSW, Australia

ENERGY, ARTHRITIS

I suffered from aching joints, increased tiredness, low energy and was really lethargic. Since I have been using the Jupiter Water Alkalizer (12 months), my energy has returned, my son's arthritis has disappeared and my husband comments that I look so young!

I'm an active 70 year old businesswoman with no pain - it's quite remarkable really."

79. Carol H. – Carolina

HYDRATION

I couldn't be happier with my new water. Everyday I look forward to making my day's supply. My son likes it a lot too. In fact he drinks it now instead of that awful soda stuff. I have to tell you, my son is a hard nut to crack. For him to take to my new water is a miracle. He was an "I don't care type". If his soda had high fructose corn syrup [a proven chemical] or things of that nature, it just didn't matter to him. He was definitely a Mountain Dew boy. Now he fills up his ionized water jug and off to work he goes and feels so much better. I guess he was tired of drinking all the time and still being thirsty. He is a landscaper.

80. Patricia Peak

PSORIASIS, SKIN

Forty years ago I was diagnosed with psoriasis. I have gone through numerous treatments and prescriptions to try to get relief. Some of these efforts offered temporary improvements, but later the psoriasis usually came back even worse.

A year ago, when the psoriasis covered about 90 per cent of my body and was beginning to appear on my face and neck, I knew something had to be done.

I found new information about getting the body to an alkaline state to help with psoriasis. Around that time, my best friend told me about alkaline antioxidant water. Now, nine months after I started drinking the alkaline antioxidant water and using the acidic water on my skin, my

skin has cleared about 70%. For years I had endured itching , bleeding, embarrassment, and restrictions. Doctor after doctor told me that I'd have to live with psoriasis because there's no cure. Now I am living proof that psoriasis can be eliminated. By drinking the alkaline antioxidant water and having the toxins in my body flushed out by the antioxidants, I am now living a healthy life.

81. Andrea G. – Edmonton, AB, Canada

TASTE

I clearly remember my first experience, how sweet and clean the water felt in my body. It was as though my whole body was drinking it in! Three years later my family is still enjoying it.

82. Dianne Caruana

MULTIPLE SCLEROSIS, ENERGY, TASTE

Two years ago I was diagnosed with Chronic Progressive MS (Multiple Sclerosis). The Neurologist I saw said there was no known cure, offered me a few words of advice, like don't stress yourself and said she would prescribe a drug for me, that I would have for three days at the hospital, that would help slow the MS process down. I could never accept such a pronouncement and I depleted all my

savings with attempts at alternative treatments, such as Homeopathy, Acupuncture, Ayurveda, Chiropractic and many supplements. I now realize I was depressed from that day. MS is a word, not a sentence, but for me the term "Chronic Progressive MS" certainly seemed like a life sentence.

I suffered a common problem of most people with Multiple Sclerosis and that is fatigue, not having the energy to do anything. I couldn't tolerate the hot summers; my internal organs began giving up on me, (I felt like an old person losing control) ---My walking got progressively worse and I began using a stick, my eyesight would bother me at times and the feeling of numbness in my left leg was there most of the time, in fact my left leg never really felt normal.

Today I am no longer depressed, I have lost the look of fatigue, my internal organs are working normally again. "Your mind seems sharper", is the comment from a close friend. This same friend says I seem more willing to engage in things despite my body, and my movement seems faster where at one time it was labored. (I still use a stick) My eyes are brighter, I look happier and smile more now and have excitement in my voice and I have a

look of peace and wellness about me.

Drinking Jupiter water was to me like drinking silk, it felt so clean and that transferred to my body. For two weeks it was being brought to me and I drank 4 liters a day, keeping a bottle by my side all the time. With all the remarkable changes going on in me, it was clear to me that I couldn't not drink this water, neither could I deny it to my son so I now have a Jupiter in my home. Because ionized water flushes away acid waste, I experienced my own healing crises. I had a week of heaviness, lethargy and headaches, but now this too has passed and I feel great again. I am aware that waste must be flushed out and this has been my experience as the water does its work. I am so grateful for Jupiter water; especially after all the modalities I have tried. These days I wake up alive again, and my son now drinks the water because he sees the effect it has on me. How grateful I am!

83. Barbara Bond – Australia

ENERGY, MEMORY, THIRST FOR WATER, HYDRATION

Old? Ha! I'm in my 80's, and began drinking Jupiter water about 18 months ago. At my age I have come to expect that getting up in the morning is a chore and that energy is not something I have a great deal of. I am also aware that my memory has been going from bad to worse. My kids call it my "Whatchamacallit" syndrome as my sentences slowly fill up with forgotten words.

Within a month of beginning Jupiter water, the changes were profound. I walked from home to the beach, 2 kilometers along the beach, and up about 60 steps to a lookout. My kids were amazed, but I didn't even think about it. The energy was just there! I have had a recurrent eye infection for a long time and it has cleared up. My inflamed gum, another long-term problem, has also cleared, and my tinea underwent its own 'healing crisis' and dried out from underneath the skin. My memory, my kids tell me, is much, much better, and that's a wonderful thing for me, having seen my sister succumb to Dementia.

I am also more aware of my food. I am aware of my choices and have stopped the 'hungry ghosts' - my need to nibble.

I believe that the way the Jupiter reduces the molecule size of the water has helped my brain to re-hydrate. So many older people drink far too little. I read about a doctor specialist in Geriatrics who healed his patients through getting them to drink water. That's true, but the water most of us drink, even filtered water, is nothing like as easy to drink as Jupiter water.

I drink it and love to drink it. It restored my 'natural' thirst, and I only realized I had lost it when it came back. I think as a nation we are all dehydrated and all acidic overloaded. If this water was available through our taps this country would be a very different, healthier one than what it is today."

84. Phoebe W. – Indiana

SKIN, ENERGY

As a lady of a "certain age" I found myself with enlarging age spots on my hands which I could no longer pass off as freckles. Using the acidic water on my skin as faded these "spots" on my hands, and it also has worked as a wonderful astringent on my face. I feel more energetic, younger, healthier - less aches and pains in the morning, throughout the day, and after exercise.

85. S. Peters – Grand Cache, AB, Canada

DETOX, ENERGY, HAIR, SKIN

I have been drinking the high alkaline water and using the acid stream as an astringent for almost a year now. I found amazing benefits in both.

The first noticeable change was in the detoxification qualities of the alkaline stream. My body started cleaning itself within 3 days of starting, and has become more regular than I can remember. I have more energy, sleep better and can focus on long tasks without becoming sluggish and tired. I use the alkaline water for cooking.

I found that water boils approximately 2/3 faster than tap water, foods cook faster, vegetables look brighter and taste better. I believe that more of the nutrients stay in the food, which is a benefit.

The benefits of the acid stream as an astringent and a cleaning agent are second to none. I have natural curly hair which was always frizzy and felt like wire. Rinsing with acid water after shampooing and spraying twice daily has resulted in soft, shiny, silky curls. I spray my entire body with acid water after my shower, dry skin is no longer a problem, small skin irritations have disappeared. Using acid water as a cleaning agent, I found that it neutralized strong cleaner odours, leaving a clean fresh scent. Using acid water in humidifiers and small water fountains has resulted in less scale build up, and helps remove odours from the air such as smoke.

I would recommend the use of the Jupiter water ionizer to all persons everywhere. Thank you Jupiter.

86. Tina Kosanoski – Edmonton, AB, Canada

REGULARITY, TASTE

I had digestive problems for over 10 years and tried different approaches. In 2002 I bought the Jupiter Regency. My digestion improved after 4-6 weeks using this water. I went to the toilet more regularly. When I put it on a higher number, like 4, it was so strong even a real constipation couldn't resist that.

Over the years I see that even financially the Jupiter has its advantages compared to bought water bottles. My friend got big water bottles delivered. She spent \$20 per month. So in 3 years the ionizer has already paid for itself.

My roommates like the water also very much, and give me a monthly support /share. We use the first gallon (acid water during the cleaning cycle) for watering our plants and the acid water to rinse bottles, so there is no waste.

The coffee and tea taste much better since we use this water. We use it also for soups and cooking. I can really recommend it.

87. Bob & Rhonda Henry – Bathurst

PAIN, PHYSICAL ACTIVITY, ALLERGIES, DIGESTION

After purchasing our Jupiter water purifier five months ago, I have been drinking 3 to 4 liters daily. We found the Bathurst water supply had a consistent pH reading of 7, so we started off on the lower setting, drinking alkaline water with a pH of 8. We then progressed to the higher settings and have been consuming pH 9 ever since.

Prior to Ionized water I had aches and pains in my knees which I suspected to be ligament or cartilage damage after a long sporting life. This eventually dissipated and when I visited my Naturopath yesterday he confirmed, via his computer iridology scan, there was no longer any visual signs of uric acid in the body. It's great to be able to run up and down stairs again without hindrance. He also showed me the fibers in my eyes controlling my kidneys had improved, and these were more clearly defined, indicating better organ functioning. I advised him my candida had also improved and he confirmed this by showing me that the discolored spots (mucus) around my eyes had lightened since my previous scan.

My wife Rhonda had suffered from indigestion for many years before

drinking the alkaline water. Her digestive system has improved and she is no longer dependent upon Bi-Carb Soda or Enos for relief. She has also noticed improvement to her knees (also problems due to sport) and we have both lost about 5k in 5 months, mainly around our waistlines.

We found a glass of water quickly suppressed the appetite and stopped us snacking on inappropriate food between meals. The antioxidant water has proved very addictive and it made us crave for more. Rhonda recently commented that we haven't had the dreaded hay fever this year (first time for 20 years), thus no drugs have been required for relief.

After recently completing a course of external chemotherapy (Efudix) to treat skin cancers, I found the healing process to repair the skin more rapid, after treating my internal system with the alkaline water (antioxidants), and my external body with the acid water (astringent).

We have also been using the acid water on our garden and indoor plants. As the Bathurst climate is very extreme it is difficult to grow azaleas, but the acid water is doing the trick. Our indoor peace lilies have bloomed for the second time in six months, (an annual occurrence only prior to Jupiter watering). The acid water is also proving a good pesticide for the veggie garden, eliminating the use of those nasty chemicals, which previously found their way into our bodies and did untold damage.

We say, God Bless those who help themselves to better health by being water wise(r)."

88. Angela Baldinger – Edmonton, AB, Canada

TASTE, HYDRATION

Since more than three years I am drinking the ionized water and I am so much enjoying it. I never used to drink a lot of water, because I simply didn't like the acidic taste to it. When I began to drink the soft and refreshing ionized water, my whole body responded to its alkaline and hydrating qualities. Now I am ONLY drinking 'ionized water and I am missing it when we eat out. Such a basic and simple device has greatly improved the most important physical nourishment in our lives.

89. Tara C. – Australia

ACNE

I am 17 years old and I have had bad acne for approximately five years. I cannot remember a day that I went out without wearing make-up to cover up the blemishes. For the past three weeks alkaline water is just about

the only water I drink. My face has rapidly changed and I have very little acne left. *(Editor's note: acne is treated with a combination of water ionizer treatments: acid ionized water is applied to the skin, and high alkaline water is used for drinking.)*

90. Woon Chin Chang – Korea

HYPER-ACIDITY

About 1 year ago, I went to see a gastric specialist. For a long time I had gastric disorder. I took a lot of antacid and charcoal pills. They did an endoscopy and they told me it was hyperacidity and some inflammation of the duodenum. My doctor put me on medication. The condition cleared for about 3 months and then the discomfort returned. Somehow, subsequent medications did not work as well as before.

Sometime around Sept/Oct 2001, my sister-in-law bought a Jupiter antioxidant water ionizer. She told me about some of its qualities being antioxidant and alkaline in nature. One day, I was at their home and I took a glass of this water. And perhaps because of my heightened sensitivity, I could actually sense a difference - I felt somewhat more comfortable. From that time onward, I took this water regularly over the course of 2 to 3 months. And every week as I took it, I would feel better. Sometime at the end of December, I decided to test out and see how things would go. I then stopped for a while and wonderfully, all the symptoms and pains never came back. I did not take any medication from that time onwards. I was able to sleep well. In fact, prior to that, I had difficulty taking things like coffee and tea. I understand now that it was due to pH imbalance and I would feel very uncomfortable. But now, I could drink my coffee and tea in moderation.

The Jupiter antioxidant alkaline water has certainly made a difference to me.

91. Keith Norman – Massachusetts (Dr. Robert O. Young, Jupiter water drinker and alkaline balance pioneer sent us this story that he received from a client recently)

WOUNDS

I had a small toe on my left foot that had turned black down to the 1st joint and had to be removed. While in the hospital an ulcer on the ball of my big toe had formed. The doctor decided that if it were removed he could stitch up the area in order for it to heal itself. After many surgeries in an attempt to get the ulcer to heal, nothing seemed to make any improvement.

A while later a visiting nurse recommended a wound vacuum to be placed on the ulcer in an attempt to keep the area dry. This procedure went on for 2 1/2 months with no change at all. My surgeon abandoned the vacuum treatment and then wanted to stitch up the bottom of my foot again. I didn't want to go through with this process again. This is because it hadn't worked before and I had great doubts as to whether it would work this time as well.

I began to talk to a Doctor in Springfield who had high hopes for me. From his conversation and the tests he would perform he thought I might get some much-needed relief from having to bandage this wound everyday. I was very disappointed to find out he was going down the same path as my previous surgeon not to mention I wasn't getting any results from the tests he had ordered either.

My wife and I left Springfield and never looked back. I told my wife I was going home and soak my feet in this pH water [acid] that my brother Jerry had gotten from you. I hoped this was going to work like he had heard it would from others. To be honest with you, I had my doubts but decided to give the water a try anyway.

I warmed the water up and soaked my left foot in it for about 45-60 minutes. I then allowed my foot to air dry and bandaged it. After doing this procedure for 3 days (December 21-24) on Christmas Eve I changed the bandage. To my surprise I noticed that the wound was healed over and the area was firm to the touch. I couldn't believe it at first and called to my wife to come have a look to confirm what I was seeing. My wife had the same reaction that I had; she couldn't believe it was finally healed!

It has been almost exactly 1 year to date since the ulcer appeared, which has caused me to miss work for 6 months straight, not to mention all the money that was lost in wages. I can't begin to tell you what this healing pH miracle water has done for me. It has given me restored faith in God and his healing. I wish we had heard about this water many months ago.

Thank you so much!

92. Marie E. - Kentucky

INFECTION

Our daughter, Ruth, has occasional problems with infection in earring holes. In the past, we have used alcohol to heal the ears. It usually takes weeks. We applied some mildly acidic water from the ionizer to the ear - ONCE! It was healed and not even tender the next day. We were shocked!

93. Nirjan K.— Edmonton, AB, Canada (transcript from taped interview)

ANTI-MOLD, TASTE

My name is Nirjan, and I grow wheatgrass commercially in a controlled environment and I was introduced to the ionizer, and one of the points that was emphasized was the use of the waste water: that it was acidic and that it suppresses the growth of molds. And I was having quite a problem with molds in the early days. So I would spray the waste water -- the acidic water -- on the young plants, and I would do that several times a day. It kept the plants healthy during their growth period. It was a very good corrective measure for that.

But what I would enjoy more than anything was the ionization factor, making the water more easily absorbable. My first experience in drinking it was just awesome. I think had a couple of mouthfuls. You know when you drink water you get that kind of bloated feeling, that full feeling in the stomach? It wasn't like that at all! I drank it and I could feel it disappear into my body. You could feel it reach every limb. It was a wonderful feeling to feel it in my body.

In my wheatgrass growing operation we (also) use the alkaline water, set on a number 4 setting. We use it for seed soaks and seed rinses and we've been using it for three years now, we go through such a volume of it.

There was a time though that we hadn't been drinking it for some time. We must have gone a couple of weeks without it. And when we started drinking it again, we realized how much we missed it! It tastes so good. It's alive and refreshing. We use it in everything we do. We have people coming and staying with us from all over the world. They fill up their water bottles from us, and they just love it — they can really tell the difference.

94. M.C. – ON, Canada

REGULARITY

We are very pleased with our unit!! My husband who has had chronic constipation since he was a little boy and has been taking Senekot & 2 Metamucil cocktails every day is now OFF EVERYTHING. He drinks about 6 or so cups a day of the water & can't believe the change. He feels better & more relaxed because of it.

We are very happy & many thanks for all the support we received when getting started. It was easy to hook up & the manual was plain to understand.

Health Professional Testimonials

95. Dr. Chris Rolston, N.D. – Edmonton, AB, Canada

PAIN, SLEEP, ECZEMA, OVERALL HEALTH, ALLERGIES, PHYSICAL ACTIVITY

As a naturopathic doctor I recognized the applications of this amazing technology right away. Clean water is a luxury in today's world, and this water is purified, alkalized, oxygenated and vitalized as well. I know of the beneficial effects of alkalizing the body through diet and

cleansing, and was delighted to find a way of assisting this quality in the body through something as simple as water.

This water is medicine for those that drink it! I have recommended this water for many patients with impressive results. I have seen it work wonders for patients with a variety of conditions, including allergies, eczema, muscle pain, back and joint pain, insomnia, and especially for athletes. Inflammatory and allergic phenomena occurring in the body are acidic processes that can be neutralized effectively with anything alkaline through diet, water or lifestyle changes. The body's metabolism produces acidic waste products that can build up and promote inflammation, pain and other health problems.

This water is alkaline enough to be of therapeutic benefit for many patients with chronic health problems. The alkalizing level can also be adjusted to match the patients' needs.

I have personally experienced benefit from this water. I have had a chronic back problem that was causing me considerable pain at times. I found pain relief with the alkalized water within 24 hours. I continue to drink this water and even take it with me to work and on vacation, for its pain-relieving and anti-inflammatory properties. I have been able to continue to be more active and enjoy more activities like cycling, as a result of this amazing and therapeutic technology.

I recommend clean purified water for everyone. This water filter provides so much more than the average water filter; this is the only machine that filters, alkalizes and oxygenates the water all at the same time. Whether for general health, cleansing, or for a specific health problem this water filter is an intelligent and beneficial investment in your health.

96. Glynn H. - Colorado

THIRST FOR WATER, GOUT, WEIGHT, REGULARITY

I'm a Ph.D. research scientist, as well as a chiropractor, acupuncturist, physical therapist and clinical nutritionist. I live with my wife and two sons in the Denver area of Colorado. I was first introduced to the Jupiter alkaline ionized water about 6 months ago by a long-time friend. Both of my sons and my wife are doctors, as well, and now we all enjoy this fantastic water.

I was praying for the development of this water for some time, based simply on the chemistry I already knew to exist, that was sufficient enough in mineral content to be of a higher natural alkalinity.

Many cultures in the world have experienced tremendous health results drinking this particular type of water. I'm currently 70 years old and, like many seniors, I had completely lost my thirst sensation over the last 20 years. Drinking the alkaline ionized water has totally restored my thirst. One interesting note is that, in our clinics, we are finding many patients are losing their thirst sensation at even younger ages, and turning to teas, colas, and other sugared beverages.

We're also seeing children that do not want to drink water. My granddaughter, Bailey, who is 11, has totally stopped drinking soda and has cleared her complexion, and has also ceased her gastrointestinal disorder that she had developed.

My youngest son has trimmed his weight from 196lbs to 182 lbs (14 lb weight loss) in just two months with no other changes, because of adding this water to his diet. My oldest son has continually suffered with Gout disease (uric acid crystals in the feet) and has gone into remission within 30 days of drinking this water.

I, myself, had a massive stroke in January of 2005. I could not walk, could not read, was in therapy for over 30 days, could not gauge distances properly and had developed Type-2 Diabetes. Because of these conditions, I had maxed out my high blood pressure and Diabetes medications and could barely even control it - not a good or promising sign. In addition to all of this, I have also been severely constipated for over 20 years. I experienced my first normal bowel movement in 20 years on the 32nd day of drinking the alkaline ionized water. In my opinion, alkaline ionized water is singularly the only metabolically correct water for the human being.

97. Sam Graci (the developer of Greens+ and an internationally-renowned researcher, formulator, lecturer, consultant, and author in the field of optimal health and nutrition)

OVERALL HEALTH

I am a big fan of electron-rich and alkaline water made from water ionizers that give water a pH of almost 10. Plants love the acidic water. I will be writing about water ionizers in a new book that I am just in the midst of writing. I actually call this water, plasma-activated micro-ionized water, that has a smaller molecule cluster of 1 to 2 molecules versus 10 to 24 in most tap water.

I wish you well as this is a very necessary area and you can make a superior contribution to your brothers' and sisters' well-being.

98. Dr. T. Watanabe and Dr. Y. Kishikawa

HYDRATION

Alkaline ionized water (AKW) is used for the purpose of supplementing electrolytes and water lost by perspiration during exercise and for preserving health, because AKW is easily absorbed by the body and is excellent at regulating osmotic pressure in vivo.

99. Sue Pollock, ND

HEADACHE

A man in his late 40's presented to my clinic with chronic headaches. Had been seeing his doctor and chiropractor with no changes in his symptoms. On Live Blood examination using a microscope we found he had lots of chemical and uric acid crystals (works on a farm), as well as massive platelet clusters (clotting factors). After discussing his water

source (rain water with chemical drift), he decided it could be beneficial to purchase and use the ionized water from a Jupiter System. He was also prescribed supplements to reduce his platelet size and numbers, feeling this build-up could be causing his headaches (blood vessels to head restrict flow). I normally check the blood after 3 months, but in this case, because I referred him back to a GP, we wanted to look at his blood before the visit, only eight days after the initial examination and only four days after being on the water.

I did not expect to see much change, as normally the supplements take a few months to show radical improvement, but hoped to see a slight shift to

show we were on the right track.

Well, we were both amazed, as his blood looked great. All crystals were gone and platelets had reduced to completely normal size and number. He also said that since drinking the alkaline water he had more energy and he'd only had one headache which was before he started the water. (He was having major headaches every second day and dull headaches the other days). He feels the results were to do with drinking the water and I tend to agree as the supplements as great as they are, don't usually work that fast. I am glad I'm drinking the water too.

100. Dr. Eric Fairbank, Naturopath – Australia

PHYSICAL ACTIVITY, DIGESTION

For years I suffered uncomfortable rheumatic muscular aches / pains and digestive problems. After only 3-4 days of drinking alkaline water my muscular endurance improved dramatically. Now 12 months later, I feel 20 years younger and rarely have any problems. Also my digestive problems just disappeared!

101. Dr. Daniel Bettiol, D.C

HYDRATION, PAIN

My most consistent finding was that 100% of my chronic Headache and Low Back patients were severely dehydrated. Many of these patients acknowledged an absolute disdain for drinking water," says Dr. Bettiol. "For those patients who adopted my daily water regimen, an immediate decrease in pain symptomology was observed. That result was too consistent to be a coincidence. (Dr. Bettiol's extensive research has shown that tap, bottled, charcoal-filtered, distilled and reverse osmosis water are NOT the ideal waters for long-term health and healing)

America has ignored the miraculous healing being experienced by the Koreans and Japanese with Ionized Alkaline Water. Where Bill Gates' vision was a computer in every home, my lifetime mission is to get an Alkaline Water Ionizer in every home throughout the world. That would not only eliminate obesity, chronic pain and the need for useless Medication, Surgery & Radiation...it would single-handedly cut our annual \$1.5 Trillion health care costs by 90%.

I would rather people spend more time with their families, their hobbies and the work they love, than sit in a doctor's office for four hours waiting for a doctor's visit they really DON'T NEED.

102. Dr. Theodore (Ted) A. Baroody DC. ND Ph.D

OVERALL HEALTH

I have very rigorously tested the Electrolyzed Water unit in clinical anecdotal situations. It is definitely a health benefit to anyone who would use it. I predict that the use of electronically restructured water will change health-care on a worldwide basis. The Electrolyzed Water unit is technologically sophisticated and aesthetically pleasing to the eye. From my testing the pH range is 10.0 pH on alkaline level 4 and goes down to 4.2 pH on acid level 4.

Through a very detailed system of muscle testing analysis covering 170 areas, called Biokinetics, I have seen the following areas strengthened and stabilized on my clients by restructured water obtained by the Electrolyzed Water unit:

- chemical poisons
- kidney gravel
- alkaline / acid imbalances
- ureters
- lymph vessels
- stomach
- kidneys
- colon
- pancreas

103. Prof. Kuninaka Hironage (Head of Kuninaka Hospital, Japan)

HIGH BLOOD PRESSURE

For over 10 years of my experience, my concept toward minerals, especially pertaining to ionic calcium in high blood pressure and other diseases, is most significant.

In accordance to the theory of medical Professor Gato of Kyushu University on Vitamin K (because vitamin K enables the blood calcium to increase), or the consumption of more ionized water, the effectiveness of the increase in the calcium in high blood pressure is most significant. Too many fats in the diets, which lead to the deposition of cholesterol on the blood vessels, which in turn constrict the blood flow, cause most illnesses such as high blood pressure.

By drinking ionized water for a period of 2 to 3 months, the blood pressure should slowly drop, because the ionized water is a good solvent, which dissolves the cholesterol in the blood vessels.

104. Prof. Watanabe Ifao., Watanabe Hospital

PRE-ECLAMPTIC TOXEMIA

Ionized water improves body constituents and ensures effective healing to many illnesses. The use of ionized water in gynecological patients has proved to be very effective. The main reason for its effectiveness is that this water can neutralize toxins.

When giving ionized water to pre-eclamptic toxemia cases, the results are very significant. During my long years of servicing pre-eclamptic toxemia cases, I found that women with pre-eclamptic toxemia who consumed ionized water tend to deliver healthier babies with stronger muscles. A survey report carried out on babies in this group has intelligence above average.

105. Dr. Sherry Rogers (author, "Detox or Die")

OVERALL HEALTH

After carefully evaluating the results of my advice to hundreds of individuals, I'm convinced that toxicity in the form of acidic waste is the primary cause of degenerative disease. Alkaline water rids the body of acid waste.

106. Prof. Kuwata Keijiroo, MD

CARDIOVASCULAR DISEASE

In my opinion, the wonder of ionized water is the ability to neutralize toxins; but it is not a medicine. The difference is that the medicines can only be applied to each individual case. Whereas ionized water can be consumed generally, and its neutralizing power is something which is very much unexpected. Now, in brief, let me introduce to you a heart disease case and how it was cured.

The patient was a 35 year old male suffering from vascular heart disease. For 5 years, his sickness deteriorated. He was in the Setagays Government Hospital for treatment. During those 5 years, he had been in and out of the hospital 5 to 6 times. He had undergone high tech examinations such as angiogram by injecting VINYL via the vein into the heart. He consulted and sought treatment from many good doctors. Later he underwent a major surgical operation. Upon his discharge from the hospital, he quit his job to convalesce. However, each time when his illness relapsed, the attack seemed to be even more severe. Last year, in August, his relatives were in despair and expected he would not live much longer. It so happened at that time that the victim's relative came across an ionized water processor. His

illness responded well and he is now on the road to recovery.

Note: In the United States, cardiovascular diseases account for more than one-half of the approximate 2 million deaths occurring each year. It is estimated that optimal conditioning of drinking water could reduce this cardiovascular disease mortality rate by as much as 15 percent in the United States. (From: Report of the Safe Drinking Water committee of the National Academy of Sciences, 1977)

107. Steve Marmor (Herbalist, Iridologist and Nutritional Consultant)

OVERALL HEALTH, HYDRATION, ENERGY

For over 20 years I have been a natural health practitioner, so I approached the alkaline antioxidant water from a practitioner's point of view.

My health is good, but I still noticed that my sugar cravings went away within 2 weeks of beginning to drink the alkaline antioxidant water. I was more hydrated, my skin was looking healthier and my sleep improved. I woke up more refreshed and feeling more energized.

108. Ranjani Cobo, MD, MPH

REGULARITY, OVERALL HEALTH

The alkaline antioxidant water is amazing because it can bring a person into physiological water balance with a proper pH in the body. In proper balance, a person will feel calmness with digestive elimination. People will feel relief from lifelong symptoms.

109. Prof. Tamura Tatsuji (Keifuku Rehabilitation Center)

ECZEMA

Eczema is used to describe several varieties of skin conditions, which have a number of common features. The exact causes of eczema are not fully understood. In many cases, eczema can be attributed to external irritants.

Let me introduce a patient who recovered from skin disease after consuming the ionized water. This patient suffered 10 years of eczema and could not be cured effectively even under specialist treatment. This patient, who is 70 years of age, is the President of a vehicle parts company. After the war, his lower limbs suffered acute eczema, which later became chronic. He was repeatedly treated in a specialist skin hospital.

The left limb responded well to treatment, but not so the right limb. He suffered severe itchiness, which, when scratched, led to bleeding. During the last 10 years, he was seen and treated by many doctors. When I first examined him, his lower limb around the joints was covered with vesicles. Weeping occurred owing to serum exuding from the vesicles.

I advised him to try consuming ionized water. He bought a unit and consumed the ionized water religiously and used the acidic water to bathe the affected areas. After 2 weeks of treatment the vesicles dried up. The eczema was completely cleared without any relapse after 1 1/2 months.

110. Dr. Ingfreid Hobert, MD

OVERALL HEALTH

You do not need expensive medicine with all the negative side effects to regain health. Alkaline water has profound long term effects because it alkalizes your body and provides an effective antioxidant.

111. Prof. Kuninaka Hironaga (Head of Kuninaka-Hospital)

ALLERGIES

Mr. Yamada, the head of Police Research Institute, suffered from severe allergy. He was treated repeatedly by skin specialist, but with no success. Then he started consuming ionized water. The allergy responded very well and was soon completely cured. No relapse had occurred, although he had taken all kinds of food. He was most grateful and excited about this treatment.

As for myself, I had also suffered severe allergy. Ever since I began to consume ionized water, the allergy has recovered. Since then, I started research on the effectiveness of ionized water.

I discovered that most allergies are due to acidification of body condition and are also related to consuming too much meat and sugar. In every allergy case, the patient's antioxidant minerals are excessively low, which in turn lowers the body resistance significantly. The body becomes overly sensitive and develops allergy easily. To stabilize the sensitivity, calcium solution is injected into the vein. Therefore, it is clear that the ionized water--that has ionic calcium -- can help alleviate allergy.

The ionic calcium not only enhances the heart, urination, and neutralization of toxins but controls acidity. It also enhances the digestive

system and liver function. It will promote natural healing power and hence increase resistance to allergy. Some special cases of illness, which do not respond to drugs, are found to respond well to ionized water.

112. Steven Nelson, NMD

GLAUCOMA, DIABETES, PAIN, OVERALL HEALTH

A woman came into my practice who was suffering from glaucoma and had side effects from the prescribed medications. I prescribed alkaline antioxidant water, and after 3 weeks her inner ocular blood pressure went down to a normal range and her glaucoma went away.

One man was on 30 units of insulin for type II diabetes for 14 years. His blood sugar ranged from 175 to 240. He drank three glasses and his blood sugar was down to 114 the next morning.

One of my clients was experiencing a lot of pain. She had scheduled a concert five weeks in advance, not knowing how she would feel that day. She drank a quart and a half of the water and her pain was relieved so much that she was able to go to the concert.

People come in every day to get the alkaline antioxidant water. They simply don't want to be without it. There is no other water like it.

The water has been remarkable for me: more hydrated, my skin is looking healthier, and my sleep improved. I have enjoyed the benefits to my body on a mental, physical, emotional and even a spiritual level. I enjoy drinking the water and it's a pleasure to be able to share it with others and see the benefits they gain.

113. Prof. Kogure Keizou (Kogure Clinic of Juntendo Hospital)

DIGESTION

The stomach is readily upset both by diseases affecting the stomach and by other general illnesses. In addition, any nervous tension or anxiety frequently causes gastric upset.

The important role of ionized water in our stomach is to neutralize the secretion and strengthen its functions. Usually, after consuming the ionized water for 1 to 3 minutes, the gastric juice increases to 1 1/2 times. For those suffering from achlorhydria (low in gastric juice) the presence of ionized water will stimulate the stomach cells to secrete more gastric juice. This in turn enhances digestion and absorption of minerals.

However, on the other hand, those with hyperchlorhydria (high in gastric

juice), the ionized water neutralizes the excessive gastric juice. Hence, it does not create any adverse reaction.

According to the medical lecturer from Maeba University, the pH of the gastric secretion will still remain normal when ionized water is consumed. This proves the ability of ionized water to neutralize as well as to stimulate the secretion.

114. Prof. Kuwata Keiji-roo, MD

DIABETES

When I was serving in the Fire Insurance Association, I used to examine many diabetic patients. Besides treating them with drugs, I provided them with ionized water. After drinking ionized water for one month, 15 diabetic patients were selected and sent to Tokyo University for further test and observations.

Initially, the more serious patients were a bit apprehensive about the treatment. When the ionized water was consumed for some time, the sugar in the blood and urine ranged from a ratio of 300mg/l to 2mg/dc. There was a time where the patient had undergone 5 to 6 blood tests a day and detected to be within normal range. Results also showed that even 1 1/2 hour after meals, the blood sugar and urine ratio was 100mg/dc 0mg/dc. The sugar in the urine has completely disappeared.

115. Dr. Gerry Brady MD. – Australia

GOUT, OVERALL HEALTH, SLEEP, ENERGY

I have practiced Medicine for 27 years and currently I practice exclusively in adult medicine in the CBD of Brisbane. I have a very broad experience of Medicine, also having founded one of Australia's most successful Biotechnology companies, Progen Industries.

However, my great passion for Italian wine and Italian mineral water recently led me to investigate the pH and minerality of wine which, in turn, led me to the pH and minerality of water (as wine is principally water). After this investigation, I became interested in Alkaline water and then I began using a water ionizer about 5 weeks ago.

Let me tell you what has happened to me personally since using a water ionizer:

- My Plantar Fasciitis has disappeared (pain in the feet in the mornings)
- My Gout has disappeared
- A long standing seborrheic keratosis on my forehead has stripped off

spontaneously (present for 3 years and resistant to any attempts to pick it off)

- My aerobic capacity has improved ++
- My bowel motions have turned to a much lighter colour
- I have become more sleepy at night and sleep “like a baby”, waking energized.
- My body’s peripheral tissues (including my brain) initially felt they were “zinging” and “superhydrated”
- My energy levels are improved overall. And some people who know me well have even said that my grey hair has darkened!

I am 50 years old. Almost all of these effects occurred soon after using Alkaline Water.

116. Dr Arthur M. Ecano, MD

OVERALL HEALTH

If the world has accepted antioxidants to slow down the aging process, it should readily agree to the uses of ionized alkaline water as an anti-aging agent. Their roles are closely linked and intertwined such that a lasting anti-aging program is incomplete without addressing both free radicals and organic acid wastes.

117. Prof. Hatori Tasutaroo (Head of Akajiuji Blood Centre, Yokohama Hospital)

WEIGHT, OVERALL HEALTH

Due to a higher standard of living, our eating habits have changed. We consume too much proteins, fats and sugar. The excess fats and carbohydrates are in the body as fats. In the present lifestyles, Americans are more extravagant in food compared to the Japanese. Due to this excessive intake, obesity is a significant problem. Normally, one out of five males and one out of four females is obese.

The degree of “burn-out” in food intake largely depends on the amount on intake of vitamins and minerals. When excessive intake of proteins, carbohydrates and fats occurs, the requirement for vitamins and minerals increases. However, there is not much research carried out pertaining to the importance of vitamins and minerals.

Nowadays, many people suffer from acidification that leads to diabetes, heart diseases, cancer, liver and kidney diseases. If our food intake can be completely burned off, then there is no deposition of fats. Obviously, there will be no acidification problem and hence there should not be any sign of obesity.

The ionized water contains an abundance of ionic calcium. This ionic calcium helps in the “burn-off” process. By drinking ionized water, it provides sufficient minerals for our body. As a result, we do not need to watch our diet to stay slim.

Hence, ionized water is a savior for those differing from obesity and many adult diseases, providing good assistance in enhancing good health.

118. Dr Susan Lark (University lecturer and author of *The Chemistry Of Success*)

OVERALL HEALTH

Drinking four to six glasses of alkaline water a day will help to neutralize over acidity and over time will help to restore your buffering ability. Alkaline water should be used when conditions of over acidity develop, such as cold, flu or bronchitis. Like vitamins C, E and Beta Carotene, alkaline water acts as an antioxidant because of its excess supply of free electrons. This can help the body against the development of heart disease, strokes, immune dysfunctions, and other common ailments.

Summary of the Benefits

Alkaline ionized water

- Energizes
- Flushes harmful acidic wastes out of the body, lessening the chances of chronic disease.
- Fosters good health by maintaining the body's delicate pH balance.
- Hydrates the body much more effectively than other waters.
- Provides a super-abundant supply of antioxidants in each glass, more powerful than fresh orange juice.
- Contaminants eliminated through extremely fine filtration.
- Tastes so good, you naturally drink more!

Acid ionized water (external use only)

- Treats acne, eczema, wounds, and persistent skin infections.
- Hair rinse, leaves hair shining and smooth.
- Kitchen disinfectant
- Anti-mold agent for starting plants
- Floral displays

Important Note To The Reader:

Scientifically, testimonials are considered as hearsay and are sometimes rejected as inadmissible evidence of benefits of an agent for health. However, when the number of testimonials of an effect becomes significant, it is unlikely that the events have occurred by chance alone. Jupiter water ionizers have undergone extensive clinical trials, and have a track record of over 30 years and millions of units sold. Many people have reported amazing results. Testimonials are given by people who wish to share their experiences, and are solely for information purposes.

This information has not been evaluated by the FDA or Health Canada, and none of the preceding testimonials or statements should be construed as medical advice. The compiler of these testimonials does not make any claims regarding any physical condition or any treatment thereof. Before accepting and implementing any of the information in this book, it is strongly recommended that you seek the services of a physician or other competent, licensed health care professional.
